The Educational Planning, Economics and International Development MA will provide students with the relevant knowledge, understanding and skills to work in educational planning, policy, management and administration in the context of international development. The programme focuses on issues affecting low and middle income contexts.

Degree summary

This programme provides students with an opportunity to identify the interconnections between society and the economy, and the implications for educational planning, whilst applying economic principles to educational planning issues. It will also provide the opportunity to critique the ways in which economic analysis and evidence are applied to education policy issues, giving students an understanding of the strengths and weaknesses of various approaches to educational planning in low and middle income contexts.

UCL Institute of Education has an outstanding and well-established reputation in the field of education and international development. This specialist programme focused on the application of economic theory and principles to issues of educational planning within the broader area of education and development is unique.

Students benefit from teaching by staff with international reputations in research in education and development within an institution which is a global leader in policy-oriented research in the field.

The programme offers opportunities to interact and network with fellow students currently or formerly employed across the education and development sectors; with internationally renowned researchers and with guest speakers including practitioners and policy-makers. A study tour to major institutions involved in the field of educational planning (UNESCO, IIEP, OECD) is offered annually (not included in the course fee).

UCL is located in central London, close to key UK government institutions, think tanks, NGOs, donor organisations and other key actors in the field of international development.

This programme is delivered by lectures, participant-led presentations, discussions based on selected readings, inputs by guest speakers, group work and debates. Some modules are available through online learning and may be studied remotely. Assessment is through coursework assignments and the dissertation/report.

Degree structure

Mode: Full-time: 1 year; Part-time: 2 years; Flexible: up to 5 years
Location: London, Bloomsbury

Note that at least one module must be studied face to face in London during the autumn term of one of the years of study so that the programme does not have a 100% distance option.

Students undertake modules to the value of 180 credits. The programme consists of three core modules (90 credits), one optional module (30 credits) and a dissertation (60 credits), or two optional modules (60 credits) and a report (30 credits).

CORE MODULES
- Economic Perspectives on Education Policy (EPEP)
- Education and International Development: Concepts, Theories and Issues (CTI)
- Planning for Education and Development (PED)

OPTIONAL MODULES
- Modules are chosen from a wide range across the UCL IOE Master’s-level offering and include:
  - Education and Development in Asia
  - Education, Conflict and Fragility
  - Educational Testing
  - Impact Evaluation Methods
  - Statistical Analysis

DISSERTATION/REPORT
- All students undertake an independent research project which culminates in either a report of 10,000 words or a dissertation of 20,000 words.
Your career

Graduates are currently working in a variety of roles in aid agencies, UN institutions, government departments, international NGOs, research centres and think tanks. Some graduates go on to work in social entrepreneurship or in development consultancy, while others proceed to doctoral study, some winning competitive scholarships and being published in international journals.

A number of students are mid-career professionals (including teachers, ministry staff and NGO professionals), for whom the programme forms part of their wider professional development, providing access to more senior roles or to a change of career direction.

Employability

The degree provides an excellent platform from which to pursue and develop a career which draws on the analytic skills and techniques required for educational planning and economic analysis in the context of international development. The programme encourages critical reflection on the application of economic theory and planning tools to 'planning problems' including those relating to project design and evaluation, which have wide application in development practice, research and consultancy. In employment terms, students benefit from the international reputation of the institution and staff at UCL as well as the diverse international perspectives of fellow students and the central location in one of the world’s most dynamic and connected cities.
Entry requirements

Normally a minimum of an upper second-class Bachelor’s degree from a UK university or an equivalent overseas qualification is required. Relevant experience of a minimum of six months living/working in a low or middle-income context/country and relating to educational planning, economics of education and/or international development is normally required. Applicants who do not meet these criteria may occasionally be considered on the basis of an excellent personal statement.

English language proficiency level

If your education has not been conducted in the English language, you will be expected to demonstrate evidence of an adequate level of English proficiency.

The level of English language proficiency for this programme is: Good.

Information about the evidence required, acceptable qualifications and test providers is provided at: www.ucl.ac.uk/graduate/english-requirements

Your application

Students are advised to apply as early as possible due to competition for places. Those applying for scholarship funding (particularly overseas applicants) should take note of application deadlines.

When we assess your application we would like to learn:

// why you want to study Educational Planning, Economics and International Development at graduate level
// why you want to study Educational Planning, Economics and International Development at UCL
// what particularly attracts you to the chosen programme
// how your academic and professional background meets the demands of this challenging programme
// where you would like to go professionally with your degree

Together with essential academic requirements, the personal statement is your opportunity to illustrate whether your reasons for applying to this programme match what the programme will deliver.

// Your experience in low or middle income countries relating to the field(s) of education (and educational planning), economics and/or international development.

Application fee: There is an application processing fee for this programme of £75 for online applications and £100 for paper applications. More details about the application fee can be found at www.ucl.ac.uk/prospective-students/graduate/taught/application.
