This MSc aims to provide sufficient knowledge of advanced medically related anthropology to enable students to utilise anthropological approaches in a range of research and professional roles. We train students in theoretical and applied aspects of the field, preparing them for careers that engage with and impact real-world contexts.

**Degree summary**

Students new to social science develop an understanding of a social science approach to the experience of illness and health, and gain skills required in social anthropological field research and analysis. For students with previous social science training, the programme focuses on the dimensions particular to medical anthropology.

- UCL Anthropology was the first in the UK to integrate biological and social anthropology with material culture into a broad-based conception of the discipline. UCL Medical Anthropology at UCL integrates interpretive, critical and applied perspectives.
- Our excellent results in the 2008 Research Assessment Exercises and 2014 Research Excellence Framework show that we are the leading broad-based anthropology department in the UK. We are also one of the largest anthropology departments in the UK, offering a breadth of expertise.
- Students are encouraged to take full advantage of the wider anthropological community in London and the department’s strong links with European universities and international institutions.

The programme is delivered through a combination of lectures, seminars, small-group presentations and discussion, tutorials, laboratory and practical work, independent directed reading, interactive teamwork, and video film and web based courses. Assessment is through one examination, two essays, optional module requirements and the research dissertation.

**Degree structure**

Mode: Full-time: 1 year; Part-time: 2 years
Location: London, Bloomsbury

Students undertake modules to the value of 180 credits. The programme consists of two core module (45 credits), optional modules in three distinct fields (45 credits) and a research dissertation (90 credits).

Your career

Medical Anthropology is a rapidly expanding interdisciplinary field and graduates of our programme have gone on to develop exciting careers in academia, clinical services, social services, government, and non-governmental organisations.

Recent career destinations* include:

- Dentist, Whittington Health NHS
- PhD Social Anthropology, UCL
- PhD, The University of Manchester
- Researcher, JWCH Institute
- PhD Population Health Sciences, The University of Edinburgh

Employability

Our approach is broad and open-minded, encompassing analysis of diversity issues in clinical practice, critical medical anthropology, psychology/psychiatry, social impact of genetic technologies, demographics, ethics, and studies of traditional healing. UCL is ranked fifth in the QS World University Rankings and our students benefit from a wealth of resources.

* Careers data is taken from the ‘Destinations of Leavers from Higher Education’ survey undertaken by HESA looking at the destinations of UK and EU students in the 2013-2015 graduating cohorts six months after graduation.
Entry requirements

A minimum of an upper second-class Bachelor’s degree in a relevant discipline from a UK university or an overseas qualification of an equivalent standard.

English language proficiency level

If your education has not been conducted in the English language, you will be expected to demonstrate evidence of an adequate level of English proficiency.

The level of English language proficiency for this programme is: Advanced

Information about the evidence required, acceptable qualifications and test providers is provided at:
www.ucl.ac.uk/graduate/english-requirements

Your application

Students are advised to apply as early as possible due to competition for places. Those applying for scholarship funding (particularly overseas applicants) should take note of application deadlines.

When we assess your application we would like to learn:
// why you want to study Medical Anthropology at graduate level
// why you want to study Medical Anthropology at UCL
// what particularly attracts you to this programme
// how your personal, academic and professional background meets the demands of a challenging academic environment
// where you would like to go professionally with your degree

Together with essential academic requirements, the personal statement is your opportunity to illustrate whether your reasons for applying to this programme match what the programme will deliver.

Application fee: There is an application processing fee for this programme of £75 for online applications and £100 for paper applications. More details about the application fee can be found at www.ucl.ac.uk/prospective-students/graduate/taught/application.

FEES AND FUNDING 2018/19 ENTRY

// UK: £12,380 (FT), £6,190 (PT)
// EU: £12,380 (FT), £6,190 (PT)
// Overseas: £21,160 (FT), £10,740 (PT)

The tuition fees shown are for the year indicated above. Fees for subsequent years may increase or otherwise vary. Further information on fee status, fee increases and the fee schedule can be viewed on the UCL Current Students website.

Full details of funding opportunities can be found on the UCL Scholarships website: www.ucl.ac.uk/scholarships

APPLICATION DEADLINE

All applicants: 27 July 2018

Details on how to apply are available on the website at:
