LONDON’S GLOBAL UNIVERSITY

PROSTHODONTICS (ADVANCED TRAINING)
MClinDent / 2018/19 ENTRY

www.ucl.ac.uk/graduate/eastman
This full-time, three-year Master's programme is designed for students from outside the European Union. It matches the institute's Specialty Training programme and is designed to enable students to meet training requirements in their home country.

### Degree summary

The programme offers practical experience in advanced conservation, fixed (conventionally prepared and resin-retained designs) and removable prosthodontics, and implant-supported prostheses for single missing teeth or partially edentulous cases, alongside an introduction to occlusal registration techniques and the range of diagnostic procedures required to ensure effective planning and design of oral reconstructions.

The programme is intensive with a strong practical emphasis. Students benefit from first-class facilities which provide unique, seamless training in specialist dentistry, including practical classes in the operative technique laboratory.

The programme is delivered through one-to-one clinical and laboratory instruction, seminar teaching, lectures, journal club, individual work including a research project, self-directed learning and problem based learning.

### Degree structure

**Mode:** Full-time: 3 years  
**Location:** London, Bloomsbury  

Students undertake modules to the value of 360 credits. All modules are compulsory. In year one, students complete core modules to the value of (165 credits). In year two, students complete core modules to the value of (105 credits) and a dissertation (90 credits). In year three students complete clinical study (not credit bearing).

#### CORE MODULES
- Interdisciplinary Aspects of Restorative Treatment  
- Principles of Treatment Core Module (Conservative Dentistry, Implant Dentistry, Prosthodontics)  
- Fundamentals of Fixed and Implant Prosthodontics  
- Fundamentals of Removable Prosthodontics  
- Prosthodontic Treatment Planning and Functional Occlusion  
- Prosthodontic Clinical and Laboratory Care 1  
- Advanced Restorative Seminars - Clinical Log Book 1 and Case Reports 1  
- Prosthodontic Operative Dentistry and Endodontics

#### DISSERTATION/REPORT
- All students undertake an independent research project in year two which culminates in a dissertation of approximately 13,000–15,000 words.
Your career

This programme offers dental professionals the opportunity to extend their knowledge of fixed and removable prosthodontics in order to prepare them for a career in specialist practice, the hospital or community services, industrial dental practice or an academic career in the field.

Recent career destinations* include:

// Prosthodontic, Ministry of Health - Kuwait

Employability

The majority of graduates completing the programme progress onto specialist lists in prosthodontics in the UK. Overseas graduates can apply to sit examinations to join relevant specialist lists in prosthodontics.

* Careers data is taken from the ‘Destinations of Leavers from Higher Education’ survey undertaken by HESA looking at the destinations of UK and EU students in the 2013-2015 graduating cohorts six months after graduation.
Entry requirements

All applicants must normally hold an approved dental qualification and have a minimum of two years’ clinical experience post-qualification.

English language proficiency level

If your education has not been conducted in the English language, you will be expected to demonstrate evidence of an adequate level of English proficiency.

The level of English language proficiency for this programme is: Good.

Information about the evidence required, acceptable qualifications and test providers is provided at:

www.ucl.ac.uk/graduate/english-requirements

Your application

Students are advised to apply as early as possible due to competition for places. Those applying for scholarship funding (particularly overseas applicants) should take note of application deadlines.

When we assess your application we would like to learn:
// how your academic and professional background meets the demands of this programme
// why you want to study prosthodontics at graduate level
// what particularly attracts you to this programme at the EDI
// where you would like to go professionally with your degree and how this programme meets your needs.

Together with essential academic requirements, the personal statement is your opportunity to illustrate whether your reasons for applying to this programme match what the programme will deliver.

Application fee: There is an application processing fee for Eastman Dental Institute programmes of £110 for online applications and £135 for paper applications. More details about the application fee can be found at www.ucl.ac.uk/prospective-students/graduate/taught/application.
