PUBLIC ARCHAEOLOGY MA / 2018/19 ENTRY

www.ucl.ac.uk/graduate/archaeo
The Public Archaeology MA at UCL is a unique programme in a rapidly growing sector. It provides students with an understanding of the different means of communicating archaeology to the public, and of the real-world political, educational, social, economic and moral/ethical dimensions of public archaeology from a global perspective.

### Degree summary

Students are introduced to the range of areas in which archaeology has relevance to the wider world, and develop an understanding of how archaeology is communicated, used (and misused) in the public arena. The flexible programme structure allows students to design a theoretically based or practically based degree depending on each individual’s interests and needs.

- The UCL Institute of Archaeology is the largest and most diverse department of archaeology in the UK, and provides a stimulating environment for postgraduate study.
- Its outstanding archaeological library is complemented by UCL’s main library, University of London Senate House and other specialist libraries.
- UCL is located in central London, within walking distance of the British Museum and the British Library. Students benefit from London’s many museums, galleries and other archaeological spaces, but in particular have easy access to UCL’s own museums and collections, which form a resource of international importance for academic research.

The programme is delivered through a combination of lectures, seminars, discussions, practical demonstrations, and field trips to museums and archaeological sites and monuments around the UK. It features a series of distinguished guest lecturers with extensive first-hand experience in the archaeology, museum, cultural and heritage sectors. Assessment is through essays, project reports and the dissertation.

Your career

Some graduates of the programme go on to PhD studies while others pursue careers in professional organisations associated with the archaeology, museum, cultural and heritage sectors. Students benefit from the practical real-world insights and contacts within these sectors that the programme offers. Career paths in these sectors include the growing fields of education and interpretation in museums and heritage sites; policy and research jobs in organisations such as the Sustainable Preservation Initiative, English Heritage and Arts Council England; and the growing interest in public archaeology within commercial archaeological organisations worldwide.

Recent career destinations* include:

- Communications Assistant, MOLA (Museum of London Archaeology)
- Visitor Experience Host, York Archaeological Trust
- Strategic Development Intern, National Museum of the Royal Navy
- Project Researcher, American University in Italy
- Senior Archaeologist, Museum of London Archaeology

Employability

Graduates of the Public Archaeology MA have a distinct set of skills and knowledge that equips them for work across the archaeology, heritage and museum sector. This includes an in-depth understanding of the structure of the sector and its socio-economic, political and cultural contexts, but also a very practical appreciation of public understanding and engagement with the past. These strengths are reflected in the diversity of career paths amongst graduates of the Public Archaeology MA programme, in archaeology, museums, the heritage industry and academia.

* Careers data is taken from the ‘Destinations of Leavers from Higher Education’ survey undertaken by HESA looking at the destinations of UK and EU students in the 2013-2015 graduating cohorts six months after graduation.
