URBAN STUDIES MSc / 2018/19 ENTRY

www.ucl.ac.uk/graduate/geography
Cities are now a critical focus for research, policy-making and public debate. According to the United Nations, three-quarters of the global population will live in cities by 2050. This MSc develops innovative, comparative and interdisciplinary modes of analysis and research that can address the scale and complexity of contemporary urbanism.

Degree summary

Students develop an advanced understanding of urban theory, and explore the main urban developments shaping the contemporary world. The programme focuses on the interface between theory and practice across a diverse range of topics, from historic patterns of urban change to large-scale challenges such as slums, poverty and access to basic services, and current developments in urban design and the visual arts.

The UCL Urban Laboratory is the result of a unique collaboration between four faculties: Arts & Humanities, the UCL Bartlett, Engineering Sciences, and Social & Historical Sciences. It brings together the best urban teaching and research at UCL and this range of expertise will make this programme unparalleled in scope both within the UK and internationally.

Urban research at UCL draws on a rich heritage of ideas including the groundbreaking insights of figures such as Patrick Abercrombie, Peter Hall, Ruth Glass and Reyner Banham.

UCL’s engagement in wider public debates in London and internationally regarding the future design and planning of cities is a distinctive feature of our research.

The programme is delivered through a combination of lectures, seminars, field trips, tutorials, discussion groups, presentations and group work. Assessment is through coursework in the form of essays, and the dissertation.

Degree structure

Mode: Full-time: 1 year; Part-time: 2 years; Flexible: 3-5 years
Location: London, Bloomsbury

Students undertake modules to the value of 180 credits. The programme offers two pathways, standard and research. The standard pathway consists of three core modules (45 credits), five options (75 credits), and a dissertation (60 credits). Research consists of four core modules (75 credits), three options (45 credits), and a dissertation (60 credits).

CORE MODULES

- Urban Imaginations
- Cities, Space and Power
- Urban Practices
- Research route only:
- Social Science Research Methodologies (30 credits)

OPTIONAL MODULES

- Options may include the following:
  - Asian Cities in a Globalising South
  - London: Aspects of Change
  - Creative Cities
  - Cities and Climate Change
  - Community Participation in City Strategies
  - Comparative Urbanism
  - Spatial Planning
  - Migration and Urban Multicultures
  - Anthropology of Architecture
  - Planning Practices in Europe
  - Thinking Space
  - Transforming Local Areas
  - Representation of Cities

DISSERTATION/REPORT

- All students undertake an individual research project which culminates in a dissertation of approximately 12,000 words.
Your career

Since the launch of the Urban Studies MSc in 2008/2009, graduates from the programme have found employment in a variety of sectors such as municipal and local government, urban political organisations, art consultancies, communications companies, financial services, social enterprise initiatives, cultural institutions, community development organisations and think tanks.

Urban Studies graduates have an impressive record of continuing their research as PhD students - in geography, development planning, and architectural design - in the UK as well as in Europe and North America: at the University of Zurich; the Open University; UCL; LSE; Universidade do Porto; TU Berlin; and the University of Minnesota.

Recent career destinations* include:

// Market Business Analyst, Transport for London (TfL)
// Secondary School Teacher (Geography and Mathematics), Ministry of Education - Singapore
// Research Administrator, Imperial College Healthcare NHS Trust
// PhD in Geography, UCL
// Academic, İzmir Kâtip Çelebi Üniversitesi (İzmir Kâtip Çelebi Üniversitesi)

Employability

This programme will significantly improve the knowledge and skills necessary for careers in academia, public and private research, and other commercial and professional fields where an advanced understanding of cities and urban change is required. Through this programme students will meet leading practitioners from the fields of architecture, journalism, transport planning, environmental management, art and urban activism. You will become part of a growing international network of graduates who are a valuable source of advice, information and guidance for current students.

* Careers data is taken from the ‘Destinations of Leavers from Higher Education’ survey undertaken by HESA looking at the destinations of UK and EU students in the 2013-2015 graduating cohorts six months after graduation.
Entry requirements

Normally a minimum of an upper second-class Bachelor’s degree in a relevant discipline from a UK university or an overseas qualification of an equivalent standard.

English language proficiency level

If your education has not been conducted in the English language, you will be expected to demonstrate evidence of an adequate level of English proficiency.

The level of English language proficiency for this programme is: **Good**.

Information about the evidence required, acceptable qualifications and test providers is provided at: [www.ucl.ac.uk/graduate/english-requirements](http://www.ucl.ac.uk/graduate/english-requirements)

Your application

Students are advised to apply as early as possible due to competition for places. Those applying for scholarship funding (particularly overseas applicants) should take note of application deadlines.

When we assess your application we would like to learn:

- why you want to study Urban Studies
- why you want to study Urban Studies at UCL
- what particularly attracts you to this programme
- how your academic and/or professional background meets the demands of a challenging academic environment
- where you would like to go professionally with your degree

Together with essential academic requirements, the personal statement is your opportunity to illustrate whether your reasons for applying to this programme match what the programme will deliver.

Application fee: There is an application processing fee for this programme of £75 for online applications and £100 for paper applications. More details about the application fee can be found at [www.ucl.ac.uk/prospective-students/graduate/taught/application](http://www.ucl.ac.uk/prospective-students/graduate/taught/application).

FEES AND FUNDING 2018/19 ENTRY

- **UK**: £10,410 (FT), £5,240 (PT)
- **EU**: £10,410 (FT), £5,240 (PT)
- **Overseas**: £21,160 (FT), £10,740 (PT)

The tuition fees shown are for the year indicated above. Fees for subsequent years may increase or otherwise vary. Further information on fee status, fee increases and the fee schedule can be viewed on the UCL Current Students website.

Fees for flexible, modular study are charged pro-rata to the appropriate full-time Master’s fee taken in an academic session.

ESRC funding exists for students taking the MSc as a prelude to a three-year PhD. UK students may apply to the Thomas Wall Trust.

Overseas students: Commonwealth Scholarships and Fellowships Plan, Ford Foundation International Fellowships, Marshall Scholarships and Fulbright Traditional Postgraduate Student Awards.

Full details of funding opportunities can be found on the UCL Scholarships website: [www.ucl.ac.uk/scholarships](http://www.ucl.ac.uk/scholarships)

APPLICATION DEADLINE

All applicants: 27 July 2018

Details on how to apply are available on the website at: [www.ucl.ac.uk/graduate/apply](http://www.ucl.ac.uk/graduate/apply)
