GEORGRAPHY BSc /
UCAS CODE: F800
2018 ENTRY

www.ucl.ac.uk/prospectus/geography
This is an integrated geography programme which combines physical and human geography as well as offering opportunities for specialisation. Those choosing the BSc will usually have studied some science at A level or equivalent, but it is possible to transfer to the BA if your interests develop differently.

**Key information**

**Programme starts**
September 2018

**Location**
London, Bloomsbury

**Degree benefits**

- You will gain a broad range of practical and project management skills, making you attractive to both the public and private sectors in the UK and around the world.
- We offer an exceptionally wide range of optional modules and have a particularly low staff-student ratio, encouraging individual choice and personal supervision.
- We are proud of our research record which has been consistently highly rated. You will therefore be working with thinkers at the cutting edge of developments in their fields.
- Our physical geography resources include specialist computing facilities for geographical information and satellite image analysis and world-class science laboratories enabling soil, water and microscopic analysis.

**Research Excellence Framework (REF) 2014**
The [Research Excellence Framework](https://www.ukri.org/research/excellence-framework), or REF, is the system for assessing the quality of research in UK higher education institutions. The 2014 REF was carried out by the UK's higher education funding bodies, and the results used to allocate research funding from 2015/16.

- 81% rated 4* (‘world-leading’) or 3* (‘internationally excellent’)

Learn more about the scope of UCL’s research, and browse case studies, on our [Research Impact website](https://research.ucl.ac.uk/research-impact).

**Degree structure**

In each year of your degree you will take a number of individual modules, normally valued at 0.5 or 1.0 credits, adding up to a total of 4.0 credits for the year. Modules are assessed in the academic year in which they are taken. The balance of compulsory and optional modules varies from programme to programme and year to year. A 1.0 credit is considered equivalent to 15 credits in the European Credit Transfer System (ECTS).

The Geography BA and BSc share core elements and it is your personal interests, and the options you wish to pursue, that should shape your choice. In your first year you take two core modules and four optional modules, one of which can be outside the department.

In year two, compulsory modules are supplemented by six optional modules, including field research-based courses, chosen from a substantial pool. At this point it is possible to begin focusing on topics such as environmental and conservation management, remote sensing, geomorphology and climate change.

Your dissertation is the main focus of year three. In this, you'll work with a relevant academic to develop an original piece of research on a topic of your choice. In addition you take further optional modules, which may include participation in exchange programmes with universities in Australia, Canada, Europe or Singapore.

Fieldwork throughout the programme can take place both in the UK and abroad, and it is possible to base your dissertation on an overseas project. Recent destinations include Australia, Belize, India, Montserrat and Papua New Guinea. Financial support for overseas fieldwork expeditions may be available through expedition funds.

**YEAR ONE**

**Core or compulsory module(s)**
- Thinking Geographically
- Geography in the Field

**Core foundational modules**
- You will select modules equivalent to 2.0 credits from a range including:
  - Global Events
  - Space and Society
  - The Earth
  - Environmental Change
  - Human Ecology

**YEAR TWO**

**Core or compulsory module(s)**
- The Practice of Geography

**Core intermediary modules**
- You then select 3.5 credits of intermediary modules from the specialised areas below. To qualify for the BSc, 2.5 of these credits must be in Physical Geography.
  - Human Geography: Cultural and Historical Geography; Development Geography; Environment and Society; Economic Geography; GIS and Geodemographics; Political Geography and Geopolitics; Urban Geography; Human Geography Fieldclass
  - Physical Geography: Ecological Patterns and Processes; Environmental Remote Sensing; Geomorphology; Hydroclimatology; Reconstructing Past Environments; Statistics for Environmental Geographers; Physical Geography Fieldclass

- You may also substitute an ancillary module from outside the department, allowing you (as in your first year) to continue developing particular language skills or start to become more specialised.
Data taken from the 'Destinations of Leavers from Higher Education' survey undertaken by HESA looking at the destinations of UK and EU students in the 2013-2015 graduating cohorts six months after graduation.
Entry requirements

A LEVELS
Grades
AAA-AAB
Subjects
Geography grade A required.

GCSE
English Language and Mathematics at grade C. For UK-based students, a grade C or equivalent in a foreign language (other than Ancient Greek, Biblical Hebrew or Latin) is required. UCL provides opportunities to meet the foreign language requirement following enrolment, further details at: www.ucl.ac.uk/ug-reqs

IB DIPLOMA
Points
36-36 overall.
Subjects
A total of 17-18 points in three higher level subjects including grade 6 in Geography, with no score below 5.

OTHER QUALIFICATIONS
UCL considers a wide range of UK and international qualifications for entry into its undergraduate programmes. Full details are given at: www.ucl.ac.uk/otherquals

UNDERGRADUATE PREPARATORY CERTIFICATES (International foundation courses)
The Undergraduate Preparatory Certificates (UPCs) are intensive one-year foundation courses for international students of high academic potential who are aiming to gain access to undergraduate degree programmes at UCL and other top UK universities.

Typical UPC students will be high achievers in a 12-year school system which does not meet the standard required for direct entry to UCL.

For more information see: www.ucl.ac.uk/upc.

TUITION FEES
The fees indicated are for undergraduate entry in the 2017/18 academic year and are for the first year of the programme at UCL only. Fees for 2018 entry will appear here as soon as they are available.

// UK & EU: £9,250 (2017/18 - see below)
// Overseas: £23,710 (2017/18)

The UK/EU fee quoted above may be subject to increase for the 2018/19 academic year and for each year of study thereafter and UCL reserves the right to increase its fees in line with UK government policy (including on an annual basis for each year of study during a programme). Fees for overseas students may be subject to an annual increase in subsequent years of study by up to 5%.

Please see the full details of UCL’s fees and possible changes on the UCL Current Students website.

Additional costs
Field courses in the second and third years are partly funded by the department, and partly self-funded by those students who choose to take them. The department does, however, provide bursaries for those students who are in receipt of a UCL bursary and who wish to undertake these courses. Further details are available on our website.

FUNDING
Various funding options are available, including student loans, scholarships and bursaries. UK students whose household income falls below a certain level may also be eligible for a non-repayable bursary or for certain scholarships. Please see the Fees and funding pages for more details.
