MEDICINE MBBS BSc / UCAS CODE: A100
2019 ENTRY

www.ucl.ac.uk/prospectus
This six-year programme includes an integrated BSc (except for graduate entrants with UK degrees), leading to the awards of Bachelor of Science (BSc) and Bachelor of Medicine and Bachelor of Surgery (MBBS). The curriculum is centred on key health problems, clinical presentations and patient pathways. You will have clinical contact throughout with patients and doctors.

### Key information

**Programme starts**
September 2019

**Location**
London, Bloomsbury

### Degree benefits

- As a student of medicine at UCL you will be joining a prestigious medical school, part of the largest Academic Health Science Centre (AHSC) in Europe.
- Six former students and staff have been awarded Nobel Prizes. Medical advances have included the discovery of adrenaline, the immune system, the hormone aldosterone and auto-immune disease.
- You will be taught by those at the forefront of international research and cutting-edge practice in medical sciences and clinical medicine.
- Our location in central London provides access to exciting clinical attachments in a range of settings.

### Accreditation

The MBBS is accredited by the General Medical Council (GMC) as a Primary Medical Qualification.

### Degree structure

In each year of your degree you will take a number of compulsory modules. Modules are assessed in the academic year in which they are taken through both formative and integrated summative methods.

Your degree will follow a six-year programme inclusive of an integrated BSc (except for graduate entrants with UK degrees) leading to the award of the Bachelor of Science (BSc) and Bachelor of Medicine and Bachelor of Surgery (MBBS).

The MBBS programme aspires to educate the 'UCL Doctor': a highly competent and scientifically literate clinician who is equipped to practise patient-centred medicine in a constantly changing modern world and has a foundation in the basic medical and social sciences.

The MBBS at UCL is a six-year integrated programme of study. Each year comprises a number of themed integrated modules, focusing on:

- **Year 1**: Fundamentals of Clinical Science 1
- **Year 2**: Fundamentals of Clinical Science 2
- **Year 3**: Integrated BSc
- **Year 4**: Integrated Clinical Care
- **Year 5**: The Life Cycle and Specialist Practice
- **Year 6**: Preparation for Practice

Students who are already UK graduates are exempt from the integrated BSc and will move directly from year two to year four.

Clinical and Professional Practice (CPP) modules run 'vertically' across the entire MBBS programme.

There are 16 CPP modules organised into three groupings: Integrated Clinical and Professional Practice (including: Anatomy and Imaging, Clinical Skills and Practical Procedures, Pathological Sciences, Use of Medicines and Use of Evidence); Overarching Themes (including: Mental Health, Social Determinants of Health, Ethics and Law and Clinical Communication); and Student-centred Learning, Person-centred Learning.

Students may choose Student Selected Components (SSCs) in years one, two and six and in the elective period in year six. SSCs allow students to pursue special interests and develop a range of generic skills. They include choices in science, research, the arts, and humanities and languages.

For highly motivated and especially able students there is the opportunity to obtain a PhD in addition to the BSc and MBBS degrees. A small number of students are selected each year for the MBPhD programme. Selection takes place during year four of the programme.

### YEAR ONE

**Fundamentals of Clinical Science 1**

- In addition to the Clinical and Professional Practice vertical modules, year one is arranged as a series of consecutive modules, each based on a physiological system.
- These modules are:
  - Foundations of Health and Medical Practice
    - Infection and Defence
    - Circulation and Breathing
    - Fluids, Nutrition and Metabolism
The programme integrates basic medical sciences and clinical sciences with professional skills and competencies throughout the programme. The integrated BSc enhances key generic skills including independent learning, critical thinking, scholarly writing and scientific method.

Your medical degree opens up a structured career framework and a wealth of opportunities. You will have access to the UCL Careers Service, and to specialist help and advice through the Careers and Foundation Transition Committee of the Medical School.

First career destinations of recent graduates (2013-2015) of this programme include:

- FY1/F1 Junior Doctor (Foundation Year 1), Heart Of England NHS Foundation Trust
- FY1/F1 Junior Doctor (Foundation Year 1), Royal Liverpool and Broadgreen University Hospitals NHS Trust
- FY1/F1 Junior Doctor (Foundation Year 1), University College London Hospitals NHS Foundation Trust
- Academic Foundation Doctor, Borders General Hospital (NHS)
- FY1/F1 Junior Doctor (Foundation Year 1), Basildon Hospital (NHS)

Your application

Application for admission should be made through UCAS (the Universities and Colleges Admissions Service). Applicants currently at school or college will be provided with advice on the process; however, applicants who have left school or who are based outside the United Kingdom may obtain information directly from UCAS.

Entry to medicine at UCL is very competitive so it is wise to follow the advice given on the UCL Medical School website about how to get the most out of your application. In addition to submitting your UCAS application you are required to sit the BioMedical Admissions Test (BMAT—see www.admissionstestingservice.org for more details).

We seek candidates from a wide variety of backgrounds. Academic qualifications are important but considerable weight is also given to your BMAT scores, personal statement, referee’s report, steps you have taken to gain insight into a medical career, community activities, general education and, if invited, your performance at the interview.
Entry requirements

A LEVELS
Contextual Offer: AAB. Biology and Chemistry required at grades AA.

GCSE
English Language and Mathematics at grade B or 6. For UK-based students, a grade C or 5 or equivalent in a foreign language (other than Ancient Greek, Biblical Hebrew or Latin) is required. UCL provides opportunities to meet the foreign language requirement following enrolment, further details at: www.ucl.ac.uk/ug-reqs

IB DIPLOMA
Standard Offer: 39. A total of 19 points in three higher level subjects including Biology and Chemistry, each with minimum score 6. No score below 5.
Contextual Offer: 36. A total of 17 points in three higher level subjects with a minimum score of 6 in Chemistry and Biology and no score below 5.

CONTEXTUAL OFFERS – ACCESS UCL SCHEME
As part of our commitment to increasing participation from underrepresented groups, students may be eligible for a contextual offer as part of the Access UCL scheme. For more information see www.ucl.ac.uk/prospectus

OTHER QUALIFICATIONS
UCL considers a wide range of UK and international qualifications for entry into its undergraduate programmes. Full details are given at: www.ucl.ac.uk/otherquals

UNDERGRADUATE PREPARATORY CERTIFICATES (International foundation courses)
UCL Undergraduate Preparatory Certificates (UPCs) are intensive one-year foundation courses for international students of high academic potential who are aiming to gain access to undergraduate degree programmes at UCL and other top UK universities.

Typical UPC students will be high achievers in a 12-year school system which does not meet the standard required for direct entry to UCL.

For more information see: www.ucl.ac.uk/upc.

TUITION FEES
The fees indicated are for undergraduate entry in the 2019/20 academic year. The UK/EU fees shown are for the first year of the programme at UCL only. Fees for future years may be subject to an inflationary increase. The Overseas fees shown are the fees that will be charged to 2019/20 entrants for each year of study on the programme, unless otherwise indicated below.

// UK & EU: £9,250 (2019/20)

// Overseas: £34,660 (2019/20) - Fixed fees for Overseas students do not apply for this programme. Overseas students entering in Year 1 pay the fees in 5 annual instalments of £34,660 (2 x £23,300 plus 3 x £42,230). Continuing Overseas students transferring in will pay £42,230 per year, representing the clinical rate for the later years of the MBBS programme. All fees are subject to annual increases of up to 5%. In response to a recent Government consultation, fees for Overseas students entering the MBBS from 2019 onwards will increase to include clinical placement fees. The extra fees have not yet been set, however we anticipate that this could be in the region of an additional £10-15,000 per year in addition to the UCL tuition fees.

Full details of UCL’s tuition fees, tuition fee policy and potential increases to fees can be found on the UCL Students website.

Additional costs
If you are concerned by potential additional costs for books, equipment, etc. on this programme, please get in touch with the relevant departmental contact (details given on this page).

FUNDING
Various funding options are available, including student loans, scholarships and bursaries. UK students whose household income falls below a certain level may also be eligible for a non-repayable bursary or for certain scholarships. Please see the Fees and funding pages for more details.
