PROJECT MANAGEMENT FOR CONSTRUCTION BSc / UCAS CODE: K221
2019 ENTRY

www.ucl.ac.uk/prospectus
Designed to respond to concerns that many of the problems of the construction industry result from a lack of good management, this BSc equips you with the tools necessary to manage the changing nature of the industry, with an emphasis on the development of analytical and managerial skills.

**Key information**

**Programme starts**
September 2019

**Location**
London, Bloomsbury

**Degree benefits**
- A strong vocational focus: a high proportion of the teaching staff have industrial appointments. Teaching is supported by specialists from industry and a programme of visiting speakers.
- The school has flourishing links with industry and is able to help you find summer work placements which will enhance your studies and may lead to future employment.
- The degree is accredited by both the Chartered Institute of Building (CIOB) and the Royal Institution of Chartered Surveyors (RICS).
- Studying in central London provides unrivalled access to building projects and potential employers. London’s financial centre continues to create demand for exciting, cutting-edge examples of construction activity.

**Accreditation**
This programme is accredited by the Royal Institution of Chartered Surveyors (RICS) and the Chartered Institute of Building (CIOB). Graduates are eligible for RICS membership after completion of the Assessment of Professional Competence (APC). The CIOB’s Professional Development Programme is available to graduates who wish to progress to chartered membership.

**Degree structure**

In each year of your degree you will take a number of individual modules, normally valued at 15 or 30 credits, adding up to a total of 120 credits for the year. Modules are assessed in the academic year in which they are taken. The balance of compulsory and optional modules varies from programme to programme and year to year. A 30-credit module is considered equivalent to 15 credits in the European Credit Transfer System (ECTS).

Focusing on the project management of capital projects, this programme develops your understanding of the construction development process, from clients developing their requirements, through the design, procurement and construction stages, to the final occupation and maintenance of the new facilities. You will learn about construction from the perspective of the contractor and from the perspective of clients, funders, and designers.

The programme addresses the design and technology of buildings and the management of the construction process through four main subject themes: management; technology; construction production process; and business environment.

Site visits and field trips provide an opportunity to observe construction within and outside the UK.

YEAR ONE

**Core or compulsory module(s)**
- Computing for the Built Environment
- The Construction Industry and its Management
- Economics 1
- Introduction to the Built Environment
- Introduction to Law
- An Introduction to Management
- Materials: Their Use and Structural Function
- Making Cities: The Production of the Built Environment

**Optional modules**
- All first year modules are compulsory.

YEAR TWO

**Core or compulsory module(s)**
- Building for a Sustainable Future
- Building Services Engineering 1
- Contract Administration and Law 1
- Economics 2
- Management 1
- Professional Skills for Project Management
- Project Management 1
- Technology Studies

**Optional modules**
- All second year modules are compulsory.

FINAL YEAR

**Core or compulsory module(s)**
- Building Services Engineering 2
- Built Asset Management
- Contract Administration and Law 2
- Dissertation
- Organisational Management
- Project Evaluation and Development
- Project Management 2

**Optional modules**
- All final year modules are compulsory.
Your learning

Teaching methods include lectures, seminars, group project work and field trips. In a number of modules you will work in groups and give presentations of your work, replicating the co-operative teamwork characteristic of the industry.

Assessment

Assessment includes examinations, coursework, day assessments, project work and presentations. Most modules use a combination of assessment methods, and weighting for each type varies depending on the module.

Your career

In addition to the main themes of construction technology and project management, the programme provides a solid foundation in economics, law and general management.

Former graduates have found that they are in great demand from a wide range of employers in project and construction management, contracting companies and other professional organisations.

First career destinations of recent graduates (2013-2015) of this programme include:

- Project Manager, Stace
- Graduate Project Manager, Atkins
- Graduate Project Manager, Network Rail
- Quantity Surveyor, Taylor Woodrow | Vinci Construction UK
- Full-time student, MSc in Real Estate Finance at University of Cambridge

Your application

Application for admission should be made through UCAS (the Universities and Colleges Admissions Service). Applicants currently at school or college will be provided with advice on the process; however, applicants who have left school or who are based outside the United Kingdom may obtain information directly from UCAS.

As the programme is in a specific vocational area it is essential that your application indicates a firm understanding of the subject and explains why you have chosen to study it. Your application will also benefit from a demonstration of wide and varied interests beyond school or college, evidence of leadership or organisational skills, and directly related work experience.

Selection is made based on the UCAS application form. All applicants are welcome to contact the department to arrange a visit and anyone who is offered a place will be invited to visit the school.
Entry requirements

A LEVELS
Standard Offer: ABB. No specific subjects.
Contextual Offer: BBB. No specific subjects.

GCSE
English Language and Mathematics at grade C or 5. For UK-based students, a grade C or 5 or equivalent in a foreign language (other than Ancient Greek, Biblical Hebrew or Latin) is required. UCL provides opportunities to meet the foreign language requirement following enrolment, further details at: www.ucl.ac.uk/ug-requirements

IB DIPLOMA
Standard Offer: 34. A score of 16 points in three higher level subjects, with no score lower than 5.
Contextual Offer: 32. A score of 15 points in three higher level subjects, with no score lower than 5.

CONTEXTUAL OFFERS – ACCESS UCL SCHEME
As part of our commitment to increasing participation from underrepresented groups, students may be eligible for a contextual offer as part of the Access UCL scheme. For more information see www.ucl.ac.uk/prospectus

OTHER QUALIFICATIONS
UCL considers a wide range of UK and international qualifications for entry into its undergraduate programmes. Full details are given at: www.ucl.ac.uk/otherquals

UNDERGRADUATE PREPARATORY CERTIFICATES (International foundation courses)
UCL Undergraduate Preparatory Certificates (UPCs) are intensive one-year foundation courses for international students of high academic potential who are aiming to gain access to undergraduate degree programmes at UCL and other top UK universities.

Typical UPC students will be high achievers in a 12-year school system which does not meet the standard required for direct entry to UCL.

For more information see: www.ucl.ac.uk/upc.

TUITION FEES
The fees indicated are for undergraduate entry in the 2019/20 academic year. The UK/EU fees shown are for the first year of the programme at UCL only. Fees for future years may be subject to an inflationary increase. The Overseas fees shown are the fees that will be charged to 2019/20 entrants for each year of study on the programme, unless otherwise indicated below.

// UK & EU: £9,250 (2019/20)
// Overseas: £25,770 (2019/20)

Full details of UCL’s tuition fees, tuition fee policy and potential increases to fees can be found on the UCL Students website.

Additional costs
If you are concerned by potential additional costs for books, equipment, etc. on this programme, please get in touch with the relevant departmental contact (details given on this page).

FUNDING
Various funding options are available, including student loans, scholarships and bursaries. UK students whose household income falls below a certain level may also be eligible for a non-repayable bursary or for certain scholarships. Please see the Fees and funding pages for more details.
