This three-year programme, accredited by the British Psychological Society, exposes you to a very wide coverage of the field of psychology. It includes the opportunity for a measure of specialisation within your studies, so you can make informed and rational decisions about your future career.

Key information

Programme starts
September 2019

Location
London, Bloomsbury

Degree benefits

- The first two years of the programme span the field of psychology while the third offers considerable choice of topics according to your main interests and aims.
- The UCL Division of Psychology & Language Sciences is one of the largest centres of psychology teaching and research in the UK. Its cutting-edge research is internationally recognised.
- The programme is accredited and audited by the British Psychological Society (BPS). Graduates are eligible to become members of the BPS, which is the starting point for a career in psychology.
- Excellent resources include our up-to-date web-based system, which makes all teaching materials (including course outlines, lecture presentation slides, handouts, video recordings of lectures) available to all registered students.

Accreditation

This programme is accredited by the British Psychological Society. UK applicants for graduate membership and the Graduate Basis for Chartered Membership (GBC) require a minimum of a lower second-class Bachelor's degree. Graduate Basis for Chartered Membership is required for entry to all accredited postgraduate and doctoral programmes as part of the route to becoming a chartered psychologist.
Final Year

Core or compulsory module(s)

- Research Project

Optional modules

- You will select six optional modules to the value of 3.0 credits. Options may include:
  - Applied Decision Making
  - Behaviour Change
  - Brain in Action
  - Cognitive Neuroscience
  - Genes and Behaviour
  - Human Computer Interaction
  - Human Learning and Memory
  - Language in Context
  - Organisational Psychology
  - Psychology and Education
  - Social Psychology of Health Risks
  - Social Psychology
  - Topics in Developmental Psychology
  - Topics in Neurobiology

Your learning

Your learning will involve attendance at lectures. You will also experience laboratory classes and independent research projects. Small academic tutorial groups meet weekly, for which you will be asked to produce essays and prepare discussion topics. Progression to the second and third years is dependent upon your achievement in years one and two.

Assessment

Assessment is primarily by end-of-year examinations, but other methods include multiple choice and computational tests and coursework. Your final-year project will be assessed in two parts: the research proposal (10% of the project mark) and the project itself (90%).

Your career

In addition to subject-based skills and knowledge, psychology graduates also acquire a number of transferable skills e.g. numeracy, IT literacy, data-management, time-management, independent research, team working, report writing, presentation skills, communications and literacy skills and the ability to work ethically and professionally with people. These abilities are all highly valued in a range of employment fields.

Your knowledge of all areas of the subject makes you eligible for entry into any field normally open to psychology graduates, or for further graduate training (which is required for graduates wishing to work as a chartered professional psychologist in the areas of health, forensic, clinical, educational and occupational psychology).

First career destinations of recent graduates (2013-2015) of this programme at UCL include:

- Clinical Trials Administrator, North Hampshire NHS Foundation Trust
- Human Resources (HR) Consultant, Aon Hewitt
- Senior Officer, Singapore Economic Development Board
- Full-time student, Dual Masters in Brain and Mind Sciences at UCL
- Full-time student, PhD in Social Psychology at the University of Southern California

Your application

Application for admission should be made through UCAS (the Universities and Colleges Admissions Service). Applicants currently at school or college will be provided with advice on the process; however, applicants who have left school or who are based outside the United Kingdom may obtain information directly from UCAS.

Together with academic requirements, we are looking to attract well-qualified students with a range of subjects at A level (or equivalent). We are also looking for you to demonstrate your understanding that psychology, in all its branches, is a scientific subject. Applicants may be asked for additional information, including the completion of a questionnaire, prior to a decision being made.

All applicants who are offered a place will be invited to attend an open day. This is intended to allow candidates to make an informed decision about whether the degree programme is right for them, and all candidates resident in the UK are usually expected to attend. Virtual open days will also be held for offer holders who are unable to attend in person.
Entry requirements

A LEVELS

Standard Offer: A*AA. To include at least one, preferably two subjects from: Biology, Chemistry, Mathematics, Physics and Psychology.

Contextual Offer: AAB. To include Grade A in at least one, preferably two subjects from: Biology, Chemistry, Mathematics, Physics and Psychology.

GCSE

English Language, Mathematics and two Sciences (double award acceptable) at grade B or 6. For UK-based students, a grade C or 5 or equivalent in a foreign language (other than Ancient Greek, Biblical Hebrew or Latin) is required. UCL provides opportunities to meet the foreign language requirement following enrolment, further details at: www.ucl.ac.uk/ug-requirements

IB DIPLOMA

Standard Offer: 39. A score of 19 points in three higher level subjects to include grade 6 in one subject from Biology, Chemistry, Mathematics, Physics and Psychology, with no score lower than 5.

Contextual Offer: 36. A score of 17 points in three higher level subjects to include grade 6 in one subject from Biology, Chemistry, Mathematics, Physics or Psychology, with no score lower than 5.

CONTEXTUAL OFFERS – ACCESS UCL SCHEME

As part of our commitment to increasing participation from underrepresented groups, students may be eligible for a contextual offer as part of the Access UCL scheme. For more information see www.ucl.ac.uk/prospectus

OTHER QUALIFICATIONS

UCL considers a wide range of UK and international qualifications for entry into its undergraduate programmes. Full details are given at: www.ucl.ac.uk/otherquals

UNDERGRADUATE PREPARATORY CERTIFICATES (International foundation courses)

UCL Undergraduate Preparatory Certificates (UPCs) are intensive one-year foundation courses for international students of high academic potential who are aiming to gain access to undergraduate degree programmes at UCL and other top UK universities.

Typical UPC students will be high achievers in a 12-year school system which does not meet the standard required for direct entry to UCL.

For more information see: www.ucl.ac.uk/upc.

TUITION FEES

The fees indicated are for undergraduate entry in the 2019/20 academic year. The UK/EU fees shown are for the first year of the programme at UCL only. Fees for future years may be subject to an inflationary increase. The Overseas fees shown are the fees that will be charged to 2019/20 entrants for each year of study on the programme, unless otherwise indicated below.

// UK & EU: £9,250 (2019/20)

// Overseas: £27,220 (2019/20)

Full details of UCL’s tuition fees, tuition fee policy and potential increases to fees can be found on the UCL Students website.

Additional costs

If you are concerned by potential additional costs for books, equipment, etc. on this programme, please get in touch with the relevant departmental contact (details given on this page).

FUNDING

Various funding options are available, including student loans, scholarships and bursaries. UK students whose household income falls below a certain level may also be eligible for a non-repayable bursary or for certain scholarships. Please see the Fees and funding pages for more details.
