Entrepreneurship Theory and Practice (COMP0146)

Description

Aims:
This is UCL’s principal Entrepreneurship course for students seeking to develop and test a new business idea. Over the past ten years we have taught entrepreneurship to around 3000 students resulting in the launch of a number of innovative businesses. The course covers: the new business lifecycle (selecting and testing a moneymaking idea, preparing a business plan, raising finance, the Exit), aspects of new business operation (registering a company, setting up your office, understanding financial statements), and exploiting new eCommerce tools and techniques (doing business electronically, company web sites, online business software and services).

Learning outcomes:
On successful completion of the module, a student will be able to:
1. apply firsthand experience of the selection and deployment of tools, techniques and theories for the identification, validation and structuring of a new business venture;

Content:
-Invention and innovation; finding and qualifying new opportunities. Business Model Generation;
-Confirming customer needs and testing market demand. Customer development;
-Lean Start-ups: what is your minimum viable product? The value of prototyping;
-Delivery channels and customer relationships. Business Plan and Preparing a Pitch;
-Financial Forecasting, Costing and Pricing. Management accounts. Cash-flow and Profit and loss;
-Developing sustainable competitive advantage. Intellectual Property Rights;
-Corporate form and structure. Founder dilemmas; team, equity, remuneration etc. Developing your brand;
-Defining and testing critical business model uncertainties. Measuring progress
