Introduction to Medical Imaging (MPHY0001)

**Description**

This module forms a fundamental component of the UCL Medical Physics and Biomedical Engineering degrees. It provides an introduction to all the major medical imaging techniques commonly encountered in hospital departments of radiology and nuclear medicine. The module will be a foundation for the further pursuit of knowledge of theoretical and practical aspects of medical imaging which are dealt with in greater detail in the following years of the Medical Physics and Biomedical Engineering degree programmes.

**Key information**

- **Year**: 2019/20
- **Credit value**: 15 (150 study hours)
- **Delivery**: UG L4, Campus-based
- **Reading List**: [View on UCL website](#)
- **Tutor**: Prof Jem Hebden
- **Term**: Term 2
- **Timetable**: [View on UCL website](#)

**Assessment**

- Written examination (main exam period): 80%
- Coursework: 20%
