Design and Professional Skills in Biomedical Engineering (MPHY0010)

**Description**

By the end of this module students will be able to describe a medical device in terms of its design and implementation, including aspects of sustainability, risk assessment, costing, etc understand the legal framework in which a biomedical engineer operates understand the processes required for problem solving and gain experience of solving realistic problems in biomedical engineering.

**Key information**

- **Year**: 2019/20
- **Credit value**: 15 (150 study hours)
- **Delivery**: UG L5, Campus-based
- **Reading List**: [View on UCL website](#)
- **Tutor**: Dr Rebecca Yerworth
- **Term**: Terms 1 and 2
- **Timetable**: [View on UCL website](#)

**Assessment**

- Group project: 100%
