Medical Physics and Biomedical Engineering

Design and Professional Skills in Biomedical Engineering (MPHY0010)

Description
By the end of this module students will be able to describe a medical device in terms of its design and implementation, including aspects of sustainability, risk assessment, costing, etc understand the legal framework in which a biomedical engineer operates understand the processes required for problem solving and gain experience of solving realistic problems in biomedical engineering.

Key information
- Year: 2019/20
- Credit value: 15 (150 study hours)
- Delivery: UG L5, Campus-based
- Reading List: View on UCL website
- Tutor: Dr Rebecca Yerworth
- Term: Terms 1 and 2
- Timetable: View on UCL website

Assessment
- Group project: 100%
