Medical Physics and Biomedical Engineering

Biomedical Engineering: Study Abroad (MPHY0014)

Description
The study abroad module provides an opportunity for 3rd year MEng students to spend one year studying biomedical engineering in an overseas institution approved by UCL.

Students can choose from a list of around 30 overseas universities based in the US, Canada, Europe, Asia and Australia.

Students already registered with BEng or MEng in Engineering (Biomedical) will need to transfer to MEng in Engineering (Biomedical) with Study Abroad.

To be eligible to study abroad, students need to achieve an average mark of above 70% in their years 1 and 2.

Coordinated by the UCL Study Abroad team and assisted by the departmental Study Abroad Tutor, the application will begin in term 1 of year 2.

After the study abroad year, students will re-join the programme at UCL for their 4th (final) year.

Key information
- **Year**: 2018/19
- **Credit value**: 120 (1200 study hours)
- **Delivery**: UG L6, Campus-based
- **Reading List**: View on UCL website
- **Tutor**: Dr Terence Leung
- **Term**: Academic year (terms 1, 2, and 3)
- **Timetable**: View on UCL website

Assessment
- **Coursework**: 100%
