LONDON’S GLOBAL UNIVERSITY

ADVANCED ARCHITECTURAL RESEARCH PG Cert
2019/20 ENTRY

www.ucl.ac.uk/graduate/
In architecture, research and practice go hand in hand, with ground-breaking design inspiring great research and vice versa. This three-month programme allows students to develop their own research and/or design to an advanced level, ready to push new boundaries and change normalised modes of working either in academia or industry. Many students on this programme work with their tutors to clarify a PhD proposal.

**Degree summary**

The Architectural Research PG Cert is designed to help students take their individual work to a higher level of design and/or theoretical development. This could materialise in the form of new physical or drawn work that strengthens the individual portfolio, or in the form of a personal exhibition, or as a written piece that extends an earlier piece of writing to become a conference paper or journal article.

- The UCL Bartlett is the UK’s largest multidisciplinary Faculty of the Built Environment, bringing together scientific and professional specialisms required to research, understand, design, construct and operate the buildings and urban environments of the future.
- Located in London, it is at the heart of the world’s largest cluster of creative architects and engineering firms, next to the UK’s seat of government and finance and has all the resources of a world city to hand.
- Outputs from the programme include group exhibitions, such as ‘Constructing Realities’, which was held at Arup’s Phase 2 Gallery in central London.

Students are allocated to an individual tutor who works with them to define an appropriate mode of research and submission. Students are encouraged to attend open lectures and crits. They also have full use of the Bartlett workshop, computer clusters, DMC London, the Bartlett Media Hub and Library.

**Degree structure**

**Mode**: Full-time: 3 months

**Location**: London, Bloomsbury

Students taking this programme full-time can begin in either September or January. Part-time study should begin in September, finishing in June the following year.

Students undertake one module to the value of 60 credits. The programme consists of one core module.

Please note that the list of modules given here is indicative. This information is published a long time in advance of enrolment and module content and availability is subject to change.

**COMPULSORY MODULE**

- Advanced Architectural Research Submission

**OPTIONAL MODULES**

- There are no optional modules for this programme
Your career

Graduates from this programme are currently researching and teaching at UCL and elsewhere and are publishing their work on an international stage.
Entry requirements

The normal minimum qualifications are a Master’s degree in architecture from a UK university or an overseas qualification of an equivalent standard, or an equivalent professional architecture or design qualification.

English language proficiency level

If your education has not been conducted in the English language, you will be expected to demonstrate evidence of an adequate level of English proficiency.

The level of English language proficiency for this programme is: Standard.

Information about the evidence required, acceptable qualifications and test providers is provided at:
www.ucl.ac.uk/graduate/english-requirements

Your application

Students are advised to apply as early as possible due to competition for places. Those applying for scholarship funding (particularly overseas applicants) should take note of application deadlines.

When we assess your application we would like to learn:

- why you want to study Advanced Architectural Research at graduate level
- why you want to study Advanced Architectural Research at UCL
- what particularly attracts you to this programme
- how your academic and professional background meets the demands of this programme
- where you would like to go professionally with your degree

Together with essential academic requirements, the personal statement is your opportunity to illustrate whether your reasons for applying to this programme match what the programme will deliver.

There is an application processing fee for this programme of £75 for online applications and £100 for paper applications. Further information can be found at:
www.ucl.ac.uk/prospective-students/graduate/taught/application.

FEES AND FUNDING 2019/20 ENTRY

// UK: £4,170 (FT)
// EU: £4,170 (FT)
// Overseas: £8,350 (FT)

The tuition fees shown are for the year indicated above. Fees for subsequent years may increase or otherwise vary. Further information on fee status, fee increases and the fee schedule can be viewed on the UCL Current Students website. Please note: students starting study in January 2019 will pay fees at the 2018/19 rate.

Full details of funding opportunities can be found on the UCL Scholarships website: www.ucl.ac.uk/scholarships

APPLICATION DEADLINE

All applicants: 26 July 2019

Details on how to apply are available on the website at:
www.ucl.ac.uk/graduate/apply
