ANTHROPOLOGY MRes / 2019/20 ENTRY

www.ucl.ac.uk/graduate/
The Anthropology MRes offers students a thorough grounding in a wide range of biological or social science methodologies and methods, an advanced knowledge of contemporary questions in anthropology, and training in statistical and professional skills, which prepare graduates for doctoral research or employment as social science researchers.

**Degree summary**

Students develop an advanced knowledge and understanding of topics in one of the sub-disciplines of anthropology (biological, social, medical or material culture). They are prepared for advanced level research through a general training in social science research methods and specialised research training in broad-based anthropological research methods and techniques.

- UCL Anthropology was the first in the UK to integrate biological, social, medical and material culture into a broad-based conception of the discipline. It is one of the largest anthropology departments in the UK in terms of both staff and research student numbers, offering an exceptional breadth of expertise.
- Our excellent results in the 2008 Research Assessment Exercise and 2014 Research Excellence Framework show that we are the leading broad-based anthropology department in the UK.
- Students are encouraged to take full advantage of the wider anthropological community in London and the department's strong links with European universities and international institutions.

The programme is delivered through a combination of lectures, seminars, small group presentations and discussion, tutorials, laboratory and practical work, independent directed reading, interactive teamwork, video, and film and web-based courses. Assessment is through coursework, unseen and take-home examination, laboratory books, posters and the dissertation.

**Degree structure**

Mode: Full-time: 1 year
Location: London, Bloomsbury

Students undertake modules to the value of 180 credits. The programme consists of two core modules (45 credits), two optional modules (30 credits) and a research dissertation (105 credits).

Please note that the list of modules given here is indicative. This information is published a long time in advance of enrolment and module content and availability is subject to change.

**DISSERTATION/REPORT**

- All MRes students undertake an independent research project which culminates in a dissertation of approximately 17,000 words (inclusive of notes).

Students usually conduct fieldwork over the summer after the end of the third term. The research carried out will inform the final dissertation,
Your career

With the completion of the MRes, we expect students to be highly competent professionals, who will either continue to the MPhil/PhD level or who will be well equipped to apply their knowledge of social science methodologies and methods and their specific anthropological expertise in a range of settings.

Employability

The MRes enhances the profile of students who already have a strong background in anthropology by training them in professional skills, statistics and various other social science methods. Exposure to positivist social science methodologies makes graduates attractive candidates for positions in NGOs or work in applied social science. Emphasis on research design and data collection through field research prepares graduates to be independent researchers. The general social science orientation of the degree qualifies students to apply for research positions on grants in various disciplines, and it opens the way to doctoral study in anthropology and other social science subjects.
Entry requirements

A minimum of an upper second-class Bachelor's degree in a relevant discipline from a UK university or an overseas qualification of an equivalent standard. Applicants may be referred to a taught Master’s in Anthropology if the application does not demonstrate sufficient disciplinary knowledge to support their proposed project. Applicants must contact their proposed supervisors prior to applying to secure support for their application.

English language proficiency level

If your education has not been conducted in the English language, you will be expected to demonstrate evidence of an adequate level of English proficiency.

The level of English language proficiency for this programme is: Advanced.

Information about the evidence required, acceptable qualifications and test providers is provided at: www.ucl.ac.uk/graduate/english-requirements

Your application

Students are advised to apply as early as possible due to competition for places. Those applying for scholarship funding (particularly overseas applicants) should take note of application deadlines. When we assess your application we would like to learn:

- why you want to study Anthropology at graduate level
- why you want to study Anthropology at UCL
- what particularly attracts you to this programme
- how your personal, academic and professional background meets the demands of a challenging academic environment
- where you would like to go professionally with your degree

Together with essential academic requirements, the personal statement is your opportunity to illustrate whether your reasons for applying to this programme match what the programme will deliver.

FEES AND FUNDING 2019/20 ENTRY

// UK: £5,210 (FT)
// EU: £5,210 (FT)
// Overseas: £20,170 (FT)

The tuition fees shown are for the year indicated above. Fees for subsequent years may increase or otherwise vary. Further information on fee status, fee increases and the fee schedule can be viewed on the UCL Students website.

Students may be eligible to apply for ESRC awards.

Full details of funding opportunities can be found on the UCL Scholarships website: www.ucl.ac.uk/scholarships

APPLICATION DEADLINE

All applicants: 26 July 2019

Details on how to apply are available on the website at: www.ucl.ac.uk/graduate/apply
