ENDODONTICS MSc / 2019/20 ENTRY

www.ucl.ac.uk/graduate/
Endodontics MSc

This programme aims to develop the skills required to enable independent practice of endodontics at a level above special interest but below specialist. It is studied either full-time over one year or part-time over two years and has a strong clinical bias.

Degree summary

The programme aims to develop a broad understanding of endodontics, including basic principles and how to apply them clinically. Students benefit from a comprehensive curriculum, opportunities for self-directed learning, a clinically relevant laboratory techniques course, emphasis on integration of theoretical and clinical aspects, and prioritised reading recommendations. The broad flexible approach allows scope for the pursuit of individual academic interests.

The programme is delivered through a structured lecture/seminar series, skills laboratory simulation courses, diagnostic clinics, supervised treatment of patients, case conferences and a research project leading to a dissertation. Students are encouraged to develop a range of vocation-specific and transferable skills.

Degree structure

Mode: Full-time: 1 year; Part-time: 2 years
Location: London, Bloomsbury
Students undertake modules to the value of 180 credits. The programme consists of five core modules (120 credits) and a research dissertation (60 credits).

Please note that the list of modules given here is indicative. This information is published a long time in advance of enrolment and module content and availability is subject to change.

Your career

Graduates of this programme have generally progressed to specialist endodontics roles within the dental or medical professions or as lecturers.

Employability

The programme’s strong emphasis on integrated development of multiple domains produces well-rounded clinicians with the competence and aptitude for developing and delivering a high-quality and predictable clinical service in endodontics.
**Entry requirements**

All applicants must hold an approved dental qualification and have a minimum of two years’ clinical experience.

**English language proficiency level**

If your education has not been conducted in the English language, you will be expected to demonstrate evidence of an adequate level of English proficiency.

The level of English language proficiency for this programme is: Good.

Information about the evidence required, acceptable qualifications and test providers is provided at:

www.ucl.ac.uk/graduate/english-requirements

**Your application**

Students are advised to apply as early as possible due to competition for places. Those applying for scholarship funding (particularly overseas applicants) should take note of application deadlines.

When we assess your application we would like to learn:

- how your academic and professional background meets the demands of this programme
- why you want to study this programme at graduate level
- what particularly attracts you to this programme
- where you would like to go professionally with your degree and how this programme meets your needs.

Together with essential academic requirements, the personal statement is your opportunity to illustrate whether your reasons for applying to this programme match what the programme will deliver.

There is an application processing fee for Eastman Dental Institute programmes of £110 for online applications and £135 for paper applications. Further information can be found at:

www.ucl.ac.uk/prospective-students/graduate/taught/application.

**FEES AND FUNDING 2019/20 ENTRY**
