ENDODONTOLOGY (ADVANCED TRAINING) M ClinDent / 2019/20 ENTRY

www.ucl.ac.uk/graduate/
This full-time, three-year Master's programme is designed for students from outside the European Union. It matches the institute's Specialty Training programme and is designed to enable students to meet training requirements in their home country.

**Degree summary**

The programme teaches a broad and deep understanding of endodontology, enabling students to apply appropriate clinical strategies from first principles. Mentored coaching specifically targets development of independent learning skills, with the aim of achieving long-term mastery.

Students benefit from a comprehensive curriculum, opportunities for self-directed learning, a clinically relevant laboratory techniques course, emphasis on integration of theoretical and clinical aspects, and prioritised reading recommendations. This broad flexible approach allows scope for the pursuit of individual academic interests.

The programme is delivered through a structured lecture and seminar series, laboratory skills simulation courses, diagnostic clinics, supervised treatment of patients, clinical audit and a research project.

### Mode

**Full-time: 3 years**

### Location

London, Bloomsbury

Students undertake modules to the value of 360 credits. The third year of study is non-credit bearing and will include clinical training, didactic teaching and completion of clinical audit. Year one: core modules (135 credits) and dissertation (30 credits). Year two: core modules (135 credits) and dissertation (60 credits).

Please note that the list of modules given here is indicative. This information is published a long time in advance of enrolment and module content and availability is subject to change.

#### Degree structure

<tr>
<td>Endodontic Relationships with Other Dental Disciplines</td>
</tr>
</tbody>
</table>

During year three, all students are required to finalise case-log portfolio, complete an audit project and have an attendance rate of no less than 70%.

#### OPTIONAL MODULES

There are no optional modules for this programme.

#### DISSERTATION/REPORT

All students undertake an independent research project in years one and two, which culminates in a dissertation of 13,000–15,000 words.
Your career
The programme prepares students for future professional evaluation of clinical/academic competence as a specialist. It is also a suitable springboard for pursuing academic, clinical or research careers in endodontics.

Employability
The graduates from this programme are prepared for the Royal Colleges’ professional examinations including the MRD (Endodontics) or MEndo which is one of the requirements of some overseas funding bodies and promotion boards.
Entry requirements

All applicants must hold an approved dental qualification and have a minimum of three years’ clinical experience post-qualification.

English language proficiency level

If your education has not been conducted in the English language, you will be expected to demonstrate evidence of an adequate level of English proficiency.

The level of English language proficiency for this programme is: Good.

Information about the evidence required, acceptable qualifications and test providers is provided at:
www.ucl.ac.uk/graduate/english-requirements

Your application

Students are advised to apply as early as possible due to competition for places. Those applying for scholarship funding (particularly overseas applicants) should take note of application deadlines.

When we assess your application we would like to learn:

how your academic, professional and personal backgrounds meet the demands of this programme
why you want to study endodontics at graduate level
what particularly attracts you to this programme
where you would like to go professionally with your degree and how this programme might meet your goals.

Together with essential academic requirements, the personal statement is your opportunity to illustrate whether your reasons for applying to this programme match what the programme will deliver.

There is an application processing fee for Eastman Dental Institute programmes of £110 for online applications and £135 for paper applications. Further information can be found at:
www.ucl.ac.uk/prospective-students/graduate/taught/application.

FEES AND FUNDING 2019/20 ENTRY

UK: £27,470 (FT), £21,220 (PT)
EU: £27,470 (FT), £21,220 (PT)
Overseas: £46,610 (FT), £35,470 (PT)

The tuition fees shown are for the year indicated above. Fees for subsequent years may increase or otherwise vary. Further information on fee status, fee increases and the fee schedule can be viewed on the UCL Students website.

Fee deposits for this programme are as follows: UK/EU full-time and part-time students £2,500; Overseas full-time and part-time students £5,000.

Full details of funding opportunities can be found on the UCL Scholarships website: www.ucl.ac.uk/scholarships

APPLICATION DEADLINE

All applicants: 7 January 2019

Details on how to apply are available on the website at:
