Global Governance and Ethics MSc

The economic, social and political benefits of good governance are high on the agenda of many world organisations. This MSc combines normative and empirical approaches to international justice, organisations and processes, and applies them to the analysis of global political institutions and policies.

Degree summary

Students of this MSc will benefit from research preparation and tailor-made interdisciplinary and multidisciplinary training of the highest quality at one of the world’s best universities.

- UCL Political Science is recognised as a centre of excellence in the field and offers a uniquely stimulating environment for the study of global governance and ethics.
- Weekly seminars offer students an unrivalled opportunity to meet and engage with some of the leading figures in the field.
- UCL Political Science offers a broad array of global governance-related expertise and teaching able to accommodate a wide scope of student interests within a university that has in recent years put emphasis on governance issues, such as global health.

The programme is delivered through a combination of lectures and seminars, and is taught by scholars that have institution, policy or country-specific knowledge and have carried out theoretical and empirical research in the field. Assessment is through unseen examinations, long essays and the dissertation.
