LONDON’S GLOBAL UNIVERSITY

IMPLANT DENTISTRY PG Dip
2019/20 ENTRY

www.ucl.ac.uk/graduate/
Implant Dentistry PG Dip /

This part-time three-year Postgraduate Diploma programme is designed for dentists with little or no experience in implant dentistry, to enable them to comprehensively diagnose, treatment plan and treat, within the scope of their ability, patients in need of implant-based surgical and prosthodontic treatment.

Degree summary

In the first year, students develop a sound evidence-based knowledge of implant dentistry with emphasis on patient selection, diagnosis, planning and basic surgery. They develop further skills in the second and third years with an emphasis on the restorative aspects of implant dentistry, patient care, advanced surgical procedures, management of complications and practice management.

Students benefit from first-class facilities for both education and research which provide unique, seamless training in specialist dentistry and access to a wide range of clinical cases and techniques ensuring experience of managing complex clinical problems.

The tutors are all registered specialists with particular emphasis in prosthodontics which helps with planning simple and complex restorative cases and the learning extends beyond basic implant dentistry.

All students treat patients on-site with one-on-one supervision and mentoring of planning, surgery and restoration of implants cases. This provides significant support and confidence for students - particularly the less experienced.

The programme is delivered through a series of interactive lectures, seminars, hands-on training, live surgery and supervised clinical treatment. The programme consists of approximately 82 contact teaching days, divided approximately as follows: Year 1: 30 days; Year 2: 34 days; Year 3: 18 days.

Degree structure

Mode: Part-time: 3 years
Location: London, Bloomsbury
Students undertake modules to the value of 120 credits. The programme consists of six core modules (120 credits).

Please note that the list of modules given here is indicative. This information is published a long time in advance of enrolment and module content and availability is subject to change.

There are no optional modules for this programme.
Your career

The aim of the programme is to enable dentists to bring implant dentistry into their everyday practice. Graduates of the programme will be equipped with the skills necessary for dental implant case selection and planning, surgery and restoration of straightforward implant cases. This is the foundation of implant treatment in general dental practice. The programme is designed for students to embark on implant treatment in their own practices during the course of the programme.

Employability

Gaining the UCL’s Postgraduate Diploma in Implant Dentistry will provide increased opportunities for working in private dental practice.
Entry requirements

All applicants must hold an approved dental qualification and have a minimum of two years’ clinical experience. All applicants must be [UK] GDC registered and practicing in the UK.

English language proficiency level

If your education has not been conducted in the English language, you will be expected to demonstrate evidence of an adequate level of English proficiency.

The level of English language proficiency for this programme is: Good. Information about the evidence required, acceptable qualifications and test providers is provided at:
www.ucl.ac.uk/graduate/english-requirements

Your application

Students are advised to apply as early as possible due to competition for places. Those applying for scholarship funding (particularly overseas applicants) should take note of application deadlines.

When we assess your application we would like to learn:

● how your academic and professional background meets the demands of this programme
● why you want to study this programme at graduate level
● what particularly attracts you to this programme
● where you would like to go professionally with your degree and how this programme meets your needs.

Together with essential academic requirements, the personal statement is your opportunity to illustrate whether your reasons for applying to this programme match what the programme will deliver.

There is an application processing fee for Eastman Dental Institute programmes of £110 for online applications and £135 for paper applications. Further information can be found at:
www.ucl.ac.uk/prospective-students/graduate/taught/application.

FEES AND FUNDING 2019/20 ENTRY

// UK: £13,734 (PT)
// EU: £13,734 (PT)

The tuition fees shown are for the year indicated above. Fees for subsequent years may increase or otherwise vary. Further information on fee status, fee increases and the fee schedule can be viewed on the UCL Students website.

Fees for 2019-20 are as follows: Year 1: £13,734 (UK/EU), £17,816 (Overseas); Year 2: £13,734 (UK/EU), £17,816 (Overseas); Year 3: £7,192 (UK/EU), £8,538 (Overseas). Fees for subsequent years will be higher, in accordance with UCL’s fees policy.

All students on this programme on a part-time or flexible basis are required to pay a fee deposit of £500.

Note on mode of study: Selecting the part-time mode allows you access to study loans, but students must complete their studies in consecutive years and may not take any time away from study without authorised Extenuating Circumstances. Those selecting the flexible mode of study cannot access loans. They are able to take a break from the end of a year of study but must complete the programme within five years.

It is not possible to transfer between modes of study so students need to select the option that suits their personal circumstances. Students will be taught together irrespective of their mode of study.

Full details of funding opportunities can be found on the UCL Scholarships website: www.ucl.ac.uk/scholarships

APPLICATION DEADLINE

All applicants: 10 June 2019
