ORAL SURGERY MClDent / 2019/20 ENTRY

www.ucl.ac.uk/graduate/
This full-time, two-year Master's programme offers an understanding of applied clinical sciences and the concepts of oral surgery, with practical experience in dentoalveolar surgery.

Degree summary

The programme combines taught modules with a research component. Students attend teaching clinics, lectures, seminars, and undertake research study leading to a dissertation. There are supervised clinical and laboratory courses and the opportunity to observe at in-patient operating sessions.

Students benefit from the broad programme structure that includes operating sessions, outpatient clinics, lectures, demonstrations and seminars, and the use of investigative techniques to illustrate the diagnosis and management of orofacial surgical disease.

Find out more about the programme on the Institute’s Oral Surgery MClinDent page.

The programme is delivered through clinical instruction on a one-to-one basis, theoretical instruction including seminar teaching, lectures, journal club, self-directed learning and problem-based learning.

Degree structure

Mode: Full-time: 2 years; Part-time: 4 years
Location: London, Bloomsbury

Students undertake modules to the value of 360 credits. Year one consists of 135 credits of core modules. Year two consists of core modules (135 credits) and a dissertation (90 credits).

Please note that the list of modules given here is indicative. This information is published a long time in advance of enrolment and module content and availability is subject to change.

The programme aims to offer education and training in oral surgery that will provide a solid foundation for specialist practice and progression towards higher surgical training.
Entry requirements

Applicants must hold an approved dental qualification and have a minimum of two years' clinical experience.

English language proficiency level

If your education has not been conducted in the English language, you will be expected to demonstrate evidence of an adequate level of English proficiency.

The level of English language proficiency for this programme is: Good.

Information about the evidence required, acceptable qualifications and test providers is provided at:
www.ucl.ac.uk/graduate/english-requirements

Your application

Students are advised to apply as early as possible due to competition for places. Those applying for scholarship funding (particularly overseas applicants) should take note of application deadlines.

When we assess your application we would like to learn:

// how your academic and professional background meets the demands of this programme
// why you want to study oral surgery at graduate level
// what particularly attracts you to this programme
// what is your source of funding and is this something you have applied for already
// what is your previous experience in oral surgery
// what is your aim after completion of this Master’s degree and how do you expect this qualification to help you.

Together with essential academic requirements, the personal statement is your opportunity to illustrate whether your reasons for applying to this programme match what the programme will deliver.

There is an application processing fee for Eastman Dental Institute programmes of £110 for online applications and £135 for paper applications. Further information can be found at:
www.ucl.ac.uk/prospective-students/graduate/taught/application.
