PHYSIOTHERAPY STUDIES: CARDIORESPIRATORY MSc / 2019/20 ENTRY

www.ucl.ac.uk/graduate/
Physiotherapy Studies: Cardiorespiratory MSc

This postgraduate programme integrates the clinical, academic and research components of cardiorespiratory physiotherapy practice. The emphasis is on the management of patients with cardiorespiratory disorders. Flexibility in selection of modules allows you to focus on your particular interests where relevant.

Degree summary

This MSc offers you the opportunity to extend your understanding of key areas cardiorespiratory physiotherapy, including challenging the foundations of established but poorly justified treatments, developing and undertaking clinical research. You will learn about new and emerging treatment options and benefit from the mentorship of recognised experts in cardiorespiratory physiotherapy.

// UCL is a world-leading university offering well-established and popular postgraduate physiotherapy programmes which are highly regarded both locally and internationally.

// Lectures, tutorials and workshops are delivered by recognised experts in physiotherapy practice.

// Students on our physiotherapy programmes come to UCL from all over the world. This cross-fertilisation of international clinical experiences and ideas generates a powerful and inspirational platform for postgraduate physiotherapy learning.

The programme is delivered through a combination of teaching and self-directed learning. Assessment is through written assignments, oral presentations, multiple choice texts, submission of the literature review and research proposal, assessed coursework, unseen and prior disclosure written examinations, and the dissertation with an oral presentation.

Degree structure

Mode: Full-time: 1 year; Part-time: 2 years; Flexible: 2-5 years
Location: London, Bloomsbury

Modules run over five to six consecutive working days. Full-time students generally take four modules per term. Part-time and modular/flexible students take one to three modules per term.

Students undertake modules to the value of 180 credits. The programme consists of four compulsory modules (60 credits), four optional modules (60 credits), and the research dissertation (60 credits).

A Postgraduate Diploma (120 credits, full-time nine months, flexible 2-5 years) is offered.

A Postgraduate Certificate (60 credits, part-time nine months) is offered.

Please note that the list of modules given here is indicative. This information is published a long time in advance of enrolment and module content and availability is subject to change.

COMPULSORY MODULES
- Physiotherapy Research and Dissemination
- Research Methods and Statistics
- Respiration Through Life, Health and Disease
- Cardiorespiratory Physiotherapy Skills
- Research Project

OPTIONAL MODULES
- Physical Activity and Clinical Exercise for Cardiovascular Disease
- Clinical Exercise and Physical Activity
- Health Management and Clinical Exercise for Pulmonary Disease
- The Heart Through Life, Health and Disease
- Paediatric Cardiorespiratory Physiotherapy
- Leadership and Professional Development
- Work Based Learning in Health

- All students undertake an independent research project which culminates in a substantial report and an oral examination.
Your career

The programme provides you with the knowledge and skills for a career in academia or research. You can also use this postgraduate qualification to pursue senior positions within your career field.

Employability

This programme aims to transform the way you think about expert patient care, and the theoretical foundation for cardiorespiratory physiotherapy clinical practice. The programme provides you with a rigorous, evidence-based training in best research and clinical practice. You will gain skills relevant to clinical, educational or research posts in physiotherapy.
Entry requirements

Normally a minimum of an upper second-class UK Bachelor’s degree or an overseas qualification of an equivalent standard in physiotherapy; or an approved Diploma in physiotherapy together with evidence of appropriate clinical and/or teaching experience and a commitment to continuing professional development.

English language proficiency level

If your education has not been conducted in the English language, you will be expected to demonstrate evidence of an adequate level of English proficiency.

The level of English language proficiency for this programme is: Standard.

Information about the evidence required, acceptable qualifications and test providers is provided at: www.ucl.ac.uk/graduate/english-requirements

Your application

Students are advised to apply as early as possible due to competition for places. Those applying for scholarship funding (particularly overseas applicants) should take note of application deadlines.

When we assess your application we would like to learn:

- why you want to study Physiotherapy Studies: Cardiorespiratory at graduate level
- why you want to study Physiotherapy Studies: Cardiorespiratory at UCL
- what particularly attracts you to this programme
- how your personal, academic and professional background meets the demands of a challenging academic environment
- where you would like to go professionally with your degree

Together with essential academic requirements, the personal statement is your opportunity to illustrate whether your reasons for applying to this programme match what the programme will deliver.

There is an application processing fee for this programme of £75 for online applications and £100 for paper applications. Further information can be found at: www.ucl.ac.uk/prospective-students/graduate/taught/application.

FEES AND FUNDING 2019/20 ENTRY

- UK: £11,340 (FT), £5,665 (PT)
- EU: £11,340 (FT), £5,665 (PT)
- Overseas: £25,150 (FT), £12,510 (PT)

The tuition fees shown are for the year indicated above. Fees for subsequent years may increase or otherwise vary. Further information on fee status, fee increases and the fee schedule can be viewed on the UCL Students website.

Fees for flexible, modular study are charged pro-rata to the appropriate full-time Master’s fee taken in an academic session.

Full details of funding opportunities can be found on the UCL Scholarships website: www.ucl.ac.uk/scholarships

APPLICATION DEADLINE

All applicants: 6 September 2019

Details on how to apply are available on the website at: www.ucl.ac.uk/graduate/apply
