PHYSIOTHERAPY STUDIES: PAEDIATRICS MSc / 2019/20 ENTRY

www.ucl.ac.uk/graduate/
This postgraduate programme integrates the clinical, academic and research components of paediatric physiotherapy practice. You will focus on the management of paediatric patients with cardiorespiratory, neurological and musculoskeletal disorders. Flexibility in selection of modules means your particular interests can be accommodated.

**Degree summary**

You will benefit from the mentorship of recognised experts in paediatric physiotherapy. The MSc offers you the opportunity to extend your understanding of key areas in physiotherapy, including challenging the foundations of established but poorly justified treatments, developing and undertaking clinical research, learning about new and emerging treatment options.

UCL is a world-leading university offering well-established and popular postgraduate physiotherapy programmes which are highly regarded both locally and internationally. Our close relationship with Great Ormond Street Hospital for Children means that much of our research and teaching is carried out on a joint basis.

Lectures, tutorials and workshops are delivered by recognised experts in physiotherapy practice.

Students on our physiotherapy programmes come to UCL from all over the world. This cross-fertilisation of international clinical experiences and ideas generates a powerful and inspirational platform for postgraduate physiotherapy learning.

The programme is delivered through a combination of teaching and self-directed learning. Assessment is through written assignments, oral presentations, multiple choice texts, submission of the literature review and research proposal, assessed coursework, unseen and prior disclosure written examinations, and the dissertation with an oral presentation.

---

**Degree structure**

Mode: Full-time: 1 year; Part-time: 2 years; Flexible: 2-5 years

Location: London, Bloomsbury

Modules run over five to six consecutive working days. Full-time students generally take four modules per term. Part-time and modular/flexible students take one to three modules per term.

Students undertake modules to the value of 180 credits. The programme consists of four compulsory modules (60 credits), four optional modules (60 credits), and the research dissertation (60 credits).

A Postgraduate Diploma (120 credits, full-time nine months, flexible study 2-5 years) is offered. Students take 75 credits of core modules and 45 credits of optional modules.

A Postgraduate Certificate (60 credits, part-time nine months) is offered. Students take 60 credits of core modules.

Please note that the list of modules given here is indicative. This information is published a long time in advance of enrolment and module content and availability is subject to change.

**DISSERTATION/REPORT**

All students undertake an independent research project which culminates in a substantial report and an oral examination.
Your career

The programme will enable you to pursue a career in academic, research or clinical practice.

Employability

This programme aims to transform the way you think about expert patient care, and the theoretical foundation for paediatric physiotherapy clinical practice. The programme provides you with a rigorous, evidence-based training in best research and clinical practice, which is advantageous when applying for physiotherapy clinical, educational or research posts.
Entry requirements

Normally a minimum of an upper second-class UK Bachelor’s degree or an overseas qualification of an equivalent standard in physiotherapy; or an approved diploma in physiotherapy together with evidence of appropriate clinical and/or teaching experience and a commitment to continuing professional development.

English language proficiency level

If your education has not been conducted in the English language, you will be expected to demonstrate evidence of an adequate level of English proficiency.

The level of English language proficiency for this programme is: Standard.

Information about the evidence required, acceptable qualifications and test providers is provided at:
www.ucl.ac.uk/graduate/english-requirements

Your application

Students are advised to apply as early as possible due to competition for places. Those applying for scholarship funding (particularly overseas applicants) should take note of application deadlines.

When we assess your application we would like to learn:

- why you want to study Physiotherapy Studies: Paediatrics at graduate level
- why you want to study Physiotherapy Studies: Paediatrics at UCL
- what particularly attracts you to this programme
- how your personal, academic and professional background meets the demands of a challenging academic environment
- where you would like to go professionally with your degree

Together with essential academic requirements, the personal statement is your opportunity to illustrate whether your reasons for applying to this programme match what the programme will deliver.

There is an application processing fee for this programme of £75 for online applications and £100 for paper applications. Further information can be found at:
www.ucl.ac.uk/prospective-students/graduate/taught/application.

FEES AND FUNDING 2019/20 ENTRY

- UK: £11,340 (FT), £5,665 (PT)
- EU: £11,340 (FT), £5,665 (PT)
- Overseas: £25,150 (FT), £12,510 (PT)

The tuition fees shown are for the year indicated above. Fees for subsequent years may increase or otherwise vary. Further information on fee status, fee increases and the fee schedule can be viewed on the UCL Students website.

Fees for flexible, modular study are charged pro-rata to the appropriate full-time Master’s fee taken in an academic session.

Full details of funding opportunities can be found on the UCL Scholarships website: www.ucl.ac.uk/scholarships

APPLICATION DEADLINE

All applicants: 26 July 2019

Details on how to apply are available on the website at:
www.ucl.ac.uk/graduate/apply
