PROSTHODONTICS (ADVANCED TRAINING)
MClinDent / 2019/20 ENTRY

www.ucl.ac.uk/graduate/
Prosthodontics (Advanced Training) MClinDent /

This is a full-time, three-year Master's programme

Degree summary

The programme offers theoretical knowledge and practical experience in all aspects of prosthodontics, including fixed (both conventionally prepared and resin-retained designs) and removable prosthodontics, implant-supported prostheses for single missing teeth or partially/fully edentulous cases, adhesive dentistry and the range of diagnostic procedures required to ensure effective planning and design of oral reconstructions. Students are also exposed to digital dentistry workflows. Please note that the module structure and assessments are under review with the scope of merging some modules and reducing the assessments, aligning ILOs and improving the learning experience and content. The new changes will take place during the 2019-20 academic year and complete module information will be updated when approved.

The programme is intensive with a strong practical emphasis. Students benefit from first-class facilities which provide unique, seamless training in specialist dentistry, including practical classes in the operative technique laboratory.

The programme is delivered through one-to-one clinical and laboratory instruction, seminar teaching, lectures, journal club, individual work including a research project, self-directed learning and problem based learning.

Degree structure

Mode: Full-time: 3 years
Location: London, Bloomsbury

Students undertake modules to the value of 360 credits. All modules are compulsory. In year one, students complete core modules to the value of 180 credits. In year two, students complete core modules to the value of 180 credits and a dissertation (90 credits). In year three students complete clinical study (not credit bearing).

Please note that the list of modules given here is indicative. This information is published a long time in advance of enrolment and module content and availability is subject to change.

Your career

This programme offers dental professionals the opportunity to extend their knowledge of fixed and removable prosthodontics in order to prepare them for a career in specialist practice, the hospital or community services, industrial dental practice or an academic career in the field.

Employability

The majority of graduates completing the programme progress onto specialist lists in prosthodontics in the UK. Overseas graduates can apply to sit examinations to join relevant specialist lists in prosthodontics.
Entry requirements

All applicants must hold an approved dental qualification and have a minimum of two years’ clinical experience post-qualification.

English language proficiency level

If your education has not been conducted in the English language, you will be expected to demonstrate evidence of an adequate level of English proficiency.

The level of English language proficiency for this programme is: Good. Information about the evidence required, acceptable qualifications and test providers is provided at:
www.ucl.ac.uk/graduate/english-requirements

Your application

Students are advised to apply as early as possible due to competition for places. Those applying for scholarship funding (particularly overseas applicants) should take note of application deadlines.

When we assess your application we would like to learn:

// how your academic and professional background meets the demands of this programme
// why you want to study prosthodontics at graduate level
// what particularly attracts you to this programme at the EDI
// where you would like to go professionally with your degree and how this programme meets your needs.

Together with essential academic requirements, the personal statement is your opportunity to illustrate whether your reasons for applying to this programme match what the programme will deliver.

There is an application processing fee for Eastman Dental Institute programmes of £110 for online applications and £135 for paper applications. Further information can be found at:
www.ucl.ac.uk/prospective-students/graduate/taught/application.

FEES AND FUNDING 2019/20 ENTRY

// UK: £27,470 (FT)
// EU: £27,470 (FT)
// Overseas: £46,610 (FT)

The tuition fees shown are for the year indicated above. Fees for subsequent years may increase or otherwise vary. Further information on fee status, fee increases and the fee schedule can be viewed on the UCL Students website.

Fee deposits for this programme are as follows: UK/EU full-time and part-time students £2,500; Overseas full-time and part-time students £5,000.

Full details of funding opportunities can be found on the UCL Scholarships website: www.ucl.ac.uk/scholarships

APPLICATION DEADLINE

All applicants: 7 January 2019

Details on how to apply are available on the website at:
