SOCIAL COGNITION: RESEARCH AND APPLICATIONS MSc / 2019/20 ENTRY

www.ucl.ac.uk/graduate/
Social Cognition: Research and Applications MSc

This MSc focuses on how individuals construe the social world and the processes that underlie social judgement and behaviour. The programme draws on the research of outstanding academic staff working in the areas of social cognition, social endocrinology, socio-cognitive neuroscience, and judgement and decision-making to provide unique, cutting-edge perspectives on humans as social beings.

Degree summary

The programme provides an understanding of how the human emotional, cognitive and neural systems have evolved to sustain social co-ordination and adaptation to the environment. Key topics include: social perception, motivation, attitudes, embodiment, emotion, social judgement and decision-making, and social neuroscience.

The Division of Psychology & Language Sciences undertakes world-leading research and teaching in mind, behaviour, and language.

Our work attracts staff and students from around the world. Together they create an outstanding and vibrant environment, taking advantage of cutting-edge resources such as a behavioural neuroscience laboratory, a centre for brain imaging, and extensive laboratories for research in speech and language, perception, and cognition.

Opportunities for graduate students to work with world-renowned researchers exist in all areas of investigation, from basic processes to applied research. The division offers a supportive environment including numerous specialist seminars, workshops, and guest lectures.

The programme is delivered through lectures, tutorials and seminars. The Division of Psychology & Language Sciences has advanced technology for the study of socio-cognitive processes, including fMRI, eye-, speech- and motion tracking equipment for dyadic and group settings, as well as a 360° video camera. Assessment is through coursework, online assessment and the dissertation.

Degree structure

Mode: Full-time: 1 year; Part-time: 2 years
Location: London, Bloomsbury

Students undertake modules to the value of 180 credits. The programme consists of six core modules (90 credits), two optional modules (30 credits), and a research dissertation (60 credits).

Please note that the list of modules given here is indicative. This information is published a long time in advance of enrolment and module content and availability is subject to change.

COMPULSORY MODULES
- Understanding Individuals and Groups
- Social Cognition, Affect, and Motivation
- Current Issues in Attitude Research
- Social Neuroscience
- Generic Research Skills (statistics)
- Social Cognition: Research Methods

OPTIONAL MODULES
- Options may include the following:
  - Knowledge, Learning, and Inference
  - Applied Decision-making
  - Principles of Cognition
  - Human Learning and Memory
  - Social Psychology
  - The Social Psychology of Risk
  - Designing and Analysing fMRI Experiments
  - Cognitive Neuroscience
  - Consumer Behaviour
  - Consulting Psychology
  - Business Psychology Seminars
  - Current Issues in Cognitive Neuroscience II: Elaborative and Adaptive Processes
  - Current Issues in Cognitive Neuroscience III: Translational Research
  - The Brain in Action

DISSERTATION/REPORT
- All students undertake an independent research project which culminates in a dissertation of 10,000–12,000 words.
Your career

Graduates have taken up positions in research, marketing, teaching, and management consultancy.

Employability

On completion of this programme students will have acquired an understanding of the processes involved in the construction of the social reality, in particular how cognitive and affective processes guide social judgement and behaviour, and how these processes are implemented in the brain. The students will have acquired methodological skills to design and carry out socio-cognitive research which will enable them to address real-world social problems and/or pursue an academic career. In addition, they will have acquired knowledge related to theoretical and philosophical issues underlying psychological research.
**Entry requirements**

A minimum of an upper second-class Bachelor’s degree from a UK university or an overseas qualification of an equivalent standard. Students are expected to have a Bachelor’s degree in Psychology. However, very good candidates in related areas, such as management, sociology, or communication sciences, will also be considered. Students should be prepared for the mathematical component contained in the MSc-level Research Statistics module.

**English language proficiency level**

If your education has not been conducted in the English language, you will be expected to demonstrate evidence of an adequate level of English proficiency.

The level of English language proficiency for this programme is: Good.

Information about the evidence required, acceptable qualifications and test providers is provided at:

[www.ucl.ac.uk/graduate/english-requirements](http://www.ucl.ac.uk/graduate/english-requirements)

**Your application**

Students are advised to apply as early as possible due to competition for places. Those applying for scholarship funding (particularly overseas applicants) should take note of application deadlines.

When we assess your application we would like to learn:

- why you want to study Social Cognition at graduate level
- why you want to study Social Cognition at UCL
- what particularly attracts you to this programme
- how your academic and professional background meets the demands of this rigorous programme
- where you would like to go professionally with your degree

Together with essential academic requirements, the personal statement is your opportunity to illustrate whether your reasons for applying to this programme match what the programme will deliver.

There is an application processing fee for this programme of £75 for online applications and £100 for paper applications. Further information can be found at:

[www.ucl.ac.uk/prospective-students/graduate/taught/application](http://www.ucl.ac.uk/prospective-students/graduate/taught/application)

**FEES AND FUNDING 2019/20 ENTRY**

- **UK**: £10,440 (FT), £4,930 (PT)
- **EU**: £10,440 (FT), £4,930 (PT)
- **Overseas**: £25,150 (FT), £12,510 (PT)

The tuition fees shown are for the year indicated above. Fees for subsequent years may increase or otherwise vary. Further information on fee status, fee increases and the fee schedule can be viewed on the UCL Students website.

Full details of funding opportunities can be found on the UCL Scholarships website: [www.ucl.ac.uk/scholarships](http://www.ucl.ac.uk/scholarships)

**APPLICATION DEADLINE**

All applicants: 26 July 2019

Details on how to apply are available on the website at: [www.ucl.ac.uk/graduate/apply](http://www.ucl.ac.uk/graduate/apply)
