LONDON’S GLOBAL UNIVERSITY

SPATIAL PLANNING MSc / 2019/20 ENTRY

www.ucl.ac.uk/graduate/
This professionally accredited postgraduate programme has been carefully designed as a 'fast-track' conversion course for graduates of any discipline who wish to make a career in planning or in related fields. It aims to broaden students' appreciation of planning and urban theory whilst providing them with the necessary skills to engage in critical and creative problem-solving.

**Degree summary**

Students analyse the definition of, and solutions to, urban and regional planning problems and the nature of existing planning systems and practices. Emphasis is placed on the importance of a spatial and comparative perspective to planning and the need for integrated solutions to planning problems and the achievement of sustainable development.

UCL’s Bartlett School of Planning (BSP) has a strong history of teaching and research. It has been at the forefront of planning research and teaching for 100 years and is one of the foremost planning schools in the United Kingdom, with an international reputation. Based in the heart of London there is much for students to learn from being at the cutting-edge of policy-relevant critical debate, empirical study and research-led teaching. The staff profile is multidisciplinary and teaching staff are actively involved in shaping the theories and debates covered in their teaching. Our annual public lectures attract pre-eminent speakers from around the world and our student body has a broad, international profile.

Although situated within global and European contexts, the focus for the programme is primarily the UK, and particularly London. London is a complex setting that provides the natural and most accessible laboratory for BSP students. An emphasis on understanding the social and physical world will lead to a greater appreciation of how action or intervention shapes place. But at the same time, there is a concern with ethical issues as a framework for planned intervention.

This MSc programme is fully accredited by the Royal Town Planning Institute (RTPI) and the Royal Institution of Chartered Surveyors (RICS).

The programme is delivered through individual and group project work, skills-based practical and IT work, lectures, tutorials and seminars. A short field course based in a European city outside the UK will take place in the second term. Assessment is through individual and group work, essays, examination, skills-based practical work, and the dissertation.

**Accreditation**

The programme is fully accredited by both the RTPI and RICS. Students successfully completing the MSc in Spatial Planning are eligible for licentiateship membership of either or both bodies, regardless of the subject focus of their undergraduate degree.

**Degree structure**

**Mode:** Full-time: 1 year; Flexible: 2-5 years

**Location:** London, Bloomsbury

Full-time students study for 37.5 hours per week during term time. Typically, lectures and seminars occur on two days per week. Flexible students normally attend half this amount.

Students undertake modules to the value of 180 credits. The programme consists of five core modules (90 credits), one specialism with two modules (30 credits), and a research dissertation (60 credits).

A Postgraduate Diploma, five core modules (90 credits), two optional modules from the list of possible specialisms available (30 credits), full-time nine months, is offered.

Please note that the list of modules given here is indicative. This information is published a long time in advance of enrolment and module content and availability is subject to change.

**COMPULSORY MODULES**

- Urban Design: Place Making
- From Strategic Vision to Urban Plan
- Pillars of Planning
- Spatial Planning: Concepts and Contexts
- Spatial Planning: Critical Practice

**OPTIONAL MODULES**

- Students choose two linked modules from the following to form a specialist study area:
  - Communities and Planning
  - Housing for Planning
  - Infrastructure Planning
  - Governance for Sustainability
  - Urban Design
  - Urban Regeneration
  - Historic Cities
  - Smart City Theory and Practice

**DISSERTATION/REPORT**

- All MSc students undertake an independent research project, closely related to the specialist option chosen and linked to UK spatial planning. The project culminates in a dissertation of 10,000 words.

Students undertake two field trips (if studying on a part-time basis, both in the first year); one two-day trip in November to a British city and one five-day trip in February to a continental European city to learn about planning policies and issues in different contexts.

The cost of the field trip (flights and accommodation) is included in the programme fee.
Your career

Graduates have been very successful in gaining subsequent employment, including core public and private sector planning careers (such as local government and local, national and international consultancies), as well as the housing and transport sectors; planning, urban regeneration and environmental agencies; public and private utility companies; think tanks and public policy organisations; environmental campaign groups; and teaching and research.

100% of graduates from this programme are in work and/or further study six months after graduating (The Destinations of Leavers from Higher Education survey 2016/17).

Employability

The programme equips graduates with a wide range of skills beneficial to employability including planning specific skills (an appreciation of policy-making and implementation, of spatial analysis, basic principles of urban design, social research and plan-making and decision-making processes) as well as more generic skills (group work, independent research, communication skills including presentation and writing, and problem solving skills).
**Entry requirements**

Preferably an upper second-class Bachelor's degree (or higher) from a UK university or an overseas qualification of equivalent standing. There is no particular subject requirement as the MSc provides an 'initial' planning education for graduates with cognate and non-cognate degrees. Where candidates fail to meet the standard requirement (i.e. they hold a degree of a lower classification), the department will take into account professional experience in planning or a related field when deciding whether to admit a candidate. Applicants who do not hold a first degree may, in exceptional cases, be admitted to the programme if they are able to demonstrate considerable senior-level professional experience in planning or a related field. In such situations, a special qualifying examination may be set; details can be obtained from the Bartlett's Graduate Faculty Office.

**English language proficiency level**

If your education has not been conducted in the English language, you will be expected to demonstrate evidence of an adequate level of English proficiency.

The level of English language proficiency for this programme is: Standard.

Information about the evidence required, acceptable qualifications and test providers is provided at: www.ucl.ac.uk/graduate/english-requirements

**Your application**

Students are advised to apply as early as possible due to competition for places. Those applying for scholarship funding (particularly overseas applicants) should take note of application deadlines.

When we assess your application we would like to learn:

- why you want to study Spatial Planning at graduate level
- why you want to study Spatial Planning at UCL
- what particularly attracts you to the chosen programme
- how your academic and professional background meets the demands of this challenging programme
- where you would like to go professionally with your degree

Together with essential academic requirements, the personal statement is your opportunity to illustrate whether your reasons for applying to this programme match what the programme will deliver.

There is an application processing fee for this programme of £75 for online applications and £100 for paper applications. Further information can be found at: www.ucl.ac.uk/prospective-students/graduate/taught/application.

**FEES AND FUNDING 2019/20 ENTRY**

- **UK**: £13,340 (FT)
- **EU**: £13,340 (FT)
- **Overseas**: £24,450 (FT)

The tuition fees shown are for the year indicated above. Fees for subsequent years may increase or otherwise vary. Further information on fee status, fee increases and the fee schedule can be viewed on the UCL Students website.

Fees for flexible, modular study are charged pro-rata to the appropriate full-time Master's fee taken in an academic session.

There are a number of sources of funding available specifically for students in The Bartlett School of Planning.

Full details of funding opportunities can be found on the UCL Scholarships website: www.ucl.ac.uk/scholarships

**APPLICATION DEADLINE**

- Full-time: 26 July 2019
- Flexible/Modular: 30 August 2019

Details on how to apply are available on the website at: www.ucl.ac.uk/graduate/apply
