SPECIAL CARE DENTISTRY
MSc /
2019/20 ENTRY

www.ucl.ac.uk/graduate/
This full-time one-year, or part-time two-year Master’s programme provides relevant education and training to meet the oral health care requirements of patients with special needs.

**Degree summary**

The programme provides a detailed understanding of the common systemic disorders likely to be of implication for routine dental care, alongside an understanding of the appropriate management and the ability to undertake clinical investigations for patients with systemic disease likely to complicate dental treatment.

The programme’s students benefit from a friendly, welcoming staff and a comprehensive education portfolio. First-class facilities for both education and research provide unique, seamless training in specialist dentistry, and access to a wide range of clinical cases and techniques which ensures experience of managing complex clinical problems.

The programme is delivered through a combination of lectures, tutorials, seminars, journal clubs and clinics organised by many of the scientists and clinicians of the institute and its allied hospital.

**Degree structure**

Mode: Full-time: 1 year; Part-time: 2 years

Location: London, Bloomsbury

Students undertake modules to the value of 180 credits. The programme consists of four core modules (120 credits) and a research dissertation (60 credits).

Please note that the list of modules given here is indicative. This information is published a long time in advance of enrolment and module content and availability is subject to change.

**Your career**

Students are equipped with the skills to provide better services to patients and ensure career progression in special care dentistry.

**Employability**

Students establish important working collaborations with staff at the institute and other parts of UCL. They are able to present aspects of their work at international conferences which, in turn, provides them with further opportunities to collaborate with specialists from across the globe.
Entry requirements

All applicants must hold an approved dental qualification and normally have a minimum of two years’ clinical experience post-qualification.

English language proficiency level

If your education has not been conducted in the English language, you will be expected to demonstrate evidence of an adequate level of English proficiency.

The level of English language proficiency for this programme is: Good.

Information about the evidence required, acceptable qualifications and test providers is provided at: www.ucl.ac.uk/graduate/english-requirements

Your application

Students are advised to apply as early as possible due to competition for places. Those applying for scholarship funding (particularly overseas applicants) should take note of application deadlines.

When we assess your application we would like to learn:

- how your academic and professional background meets the demands of this programme
- why you want to study special care dentistry at graduate level
- what particularly attracts you to this programme
- what is your source of funding and is this something you have applied for already
- what is your previous experience of special care dentistry
- what are your plans after completion of this Master’s degree and how do you expect this qualification to help you.

Together with essential academic requirements, the personal statement is your opportunity to illustrate whether your reasons for applying to this programme match what the programme will deliver.

There is an application processing fee for Eastman Dental Institute programmes of £110 for online applications and £135 for paper applications. Further information can be found at: www.ucl.ac.uk/prospective-students/graduate/taught/application.
