URBAN REGENERATION MSc
2019/20 ENTRY
www.ucl.ac.uk/graduate/
Urban Regeneration MSc

This MSc engages with a great challenge facing urban professionals: the decay of cities and their planned renaissance. It will equip you with the ability to critically analyse complex urban issues, the boldness to address those issues in a creative, strategic manner and the confidence to propose appropriate implementation plans.

Degree summary
You will acquire the latest knowledge of the social, economic and spatial issues involved in regenerating urban areas and you will gain a case-based, multidisciplinary experience of real urban regeneration schemes. The programme provides a platform for informed reflection on the latest theory and practice and will develop your creative thinking and problem-solving abilities.

The Bartlett School of Planning has been at the forefront of planning research and teaching in the UK and internationally since 1914. The programme, one of the oldest in The Bartlett, is delivered by globally distinguished academics.

You will be engaged with practitioners, alumni and academic guests through seminars, site visits and workshops in the UK and overseas. Upon graduation you will join both the UCL alumni network and the Urban Regeneration MSc network.

Following graduation you will also be eligible to apply for membership of the Royal Institution of Chartered Surveyors (RICS), the Institute of Economic Development (IED) and, depending on your elective modules, the Royal Town Planning Institute (RTPI).

The programme is delivered through individual and group project work, lectures, tutorials, seminars and workshops. You will participate for free in a field trip to mainland Europe and several site visits in the UK. You will be assessed through essays, individual and group projects, presentations, reports, an unseen written examination and the dissertation. We make every effort to bundle teaching for the core modules on two days per week so that students studying on a flexible basis can attend lectures one day per week. However, due to timetabling and venue availability restrictions no guarantee can be given that we will be able to offer this every year. There is also no guarantee that the electives you may wish to choose will be offered on the same day as the rest of your classes. Your coursework may require you to dedic more than one slot per week to fieldwork or study.

Accreditation
The Master’s programme is fully accredited by both RTPI and RICS

Degree structure
Mode: Full-time: 1 year; Flexible: up to 5 years
Location: London, Bloomsbury
Full-time students study for 37.5 hours per week during term time. Typically, lectures and seminars occur on two days per week. Flexible students normally attend half this amount.

Students undertake modules to the value of 180 credits in total. The programme consists of six core modules (90 credits), two optional modules (30 credits) and a research dissertation (60 credits). A Postgraduate Diploma, six core modules (90 credits), two optional modules (30 credits, full-time nine months, is offered.

Please note that the list of modules given here is indicative. This information is published a long time in advance of enrolment and module content and availability is subject to change.

COMPULSORY MODULES

- Urban Problems and Problematics
- Development Projects
- Preparing Regeneration Projects
- Implementing Regeneration Projects
- Critical Debates in Urban Regeneration
- Urban Design: Place Making

OPTIONAL MODULES
You can choose optional modules from across UCL which may include the following specialisms:

- Cities and the Environment
- Housing
- Modules on the Global South from the Development Planning Unit (DPU)
- Sustainable Urban Development
- The Representation of Cities and other modules from the Urban Lab
- Transport Policy and Planning
- Urban Design
- Urban Economics and Politics
- Students taking RTPI accreditation must take the following:
  - Planning Practice
  - Plus either Comparative Planning Systems and Cultures or Spatial Planning: Concepts and Context

DISSERTATION/REPORT

In order to develop your research skills and critical thinking you will undertake an independent research project which culminates in a dissertation of 10,000 words.

A field trip will take place in the Reading Week of term two. There are no additional costs involved in the field trip.
Your career

Graduates have been very successful in finding jobs in a wide variety of public, private and third sector organisations in the UK and around the world. Your career following graduation may include employment in a diverse range of areas like planning, real estate, regeneration and economic development consultancies; national and regional regeneration, housing and economic development agencies; local authorities; specific regeneration and local economic development programmes as well as voluntary and community sector organisations and NGOs. You may also wish to continue with further research for a PhD degree.

Employability

The programme will equip you with up-to-date knowledge, creative skills and a unique way of thinking about the built environment in an integrated manner. A diverse range of employers readily appreciate these attributes and often make direct requests for recommendations.
### Entry requirements

Preferably an upper second-class honours Bachelor's degree (or higher) from a UK university or an overseas qualification of equivalent standing is required.

There is no particular subject requirement as the MSc provides an 'initial' planning and urban regeneration education for graduates with cognate or non-cognate degrees. Where candidates fail to meet the standard requirement (i.e. they hold a degree of a lower classification), the department will take into account professional experience when deciding whether to admit. Applicants who do not hold an upper second-class degree may, in exceptional cases, be admitted to the programme if they are able to demonstrate considerable senior-level professional experience in planning or a related field.

### English language proficiency level

If your education has not been conducted in the English language, you will be expected to demonstrate evidence of an adequate level of English proficiency.

The level of English language proficiency for this programme is: Standard.

Information about the evidence required, acceptable qualifications and test providers is provided at: [www.ucl.ac.uk/graduate/english-requirements](http://www.ucl.ac.uk/graduate/english-requirements)

### Your application

Students are advised to apply as early as possible due to competition for places. Those applying for scholarship funding (particularly overseas applicants) should take note of application deadlines.

In your application make sure you tell us:

- why you want to study Urban Regeneration at graduate level
- why you want to study Urban Regeneration at UCL
- what particularly attracts you to the chosen programme
- how your academic and professional background meets the demands of this challenging programme
- where you would like to go professionally with your degree

Together with essential academic requirements, the personal statement is your opportunity to illustrate whether your reasons for applying to this programme match what the programme aims to deliver.

There is an application processing fee for this programme of £75 for online applications and £100 for paper applications. Further information can be found at: [www.ucl.ac.uk/prospective-students/graduate/taught/application](http://www.ucl.ac.uk/prospective-students/graduate/taught/application).

### FEES AND FUNDING 2019/20 ENTRY

- **UK:** £13,340 (FT)
- **EU:** £13,340 (FT)
- **Overseas:** £24,450 (FT)

The tuition fees shown are for the year indicated above. Fees for subsequent years may increase or otherwise vary. Further information on fee status, fee increases and the fee schedule can be viewed on the UCL Students website.

Fees for flexible, modular study are charged pro-rata to the appropriate full-time Master's fee taken in an academic session.

There are a number of sources of funding available specifically for students in The Bartlett School of Planning. Further details can be found on the Bartlett website.

### APPLICATION DEADLINE

Full-time: 26 July 2019

Flexible/Modular: 26 July 2019

Details on how to apply are available on the website at: [www.ucl.ac.uk/graduate/apply](http://www.ucl.ac.uk/graduate/apply)
