This programme looks at the biological, cultural, social and material culture aspects of human beings as well as their evolution. It will help you gain a broad set of skills including: critical reasoning; the ability to search, sift and analyse various materials; collaborative group work; and oral and written communication.

**Key information**

**Programme starts**
September 2020

**Location**
London, Bloomsbury

**Degree benefits**

- UCL Anthropology is one of the few departments in the country that combines social anthropology, biological anthropology, material culture and medical anthropology to give you a truly broad-based anthropology degree.
- One of the largest anthropology departments in the UK, with highly-rated research, offering an exceptionally wide range of modules taught by academic staff at the forefront of the discipline.
- Access to excellent resources including extensive literature in the UCL Main Library and other nearby libraries, such as in the Centre for Anthropology at the British Museum.
- We have an outstanding collection of ethnographic items and the Napier Primate Collection, and work closely with the ethnographic department of the British Museum and with the Horniman Museum.

**Degree structure**

In each year of your degree you will take a number of individual modules, normally valued at 15 or 30 credits, adding up to a total of 120 credits for the year. Modules are assessed in the academic year in which they are taken. The balance of compulsory and optional modules varies from programme to programme and year to year. A 30-credit module is considered equivalent to 15 credits in the European Credit Transfer System (ECTS).

In the first year, you take compulsory modules covering the three branches of the programme; biological anthropology, social anthropology and material culture. Biological anthropology focuses on contemporary human-environment interactions and human evolution. Social anthropology explores social and cultural differences and their determinants, from indigenous groups to modern western economies. Material culture studies human, social and environmental relationships through the evidence of people’s construction of their material world. Your first year also includes a three-day field trip to discover ethnographic research and participant observation in ritual, landscape, and techniques.

Your second year includes both compulsory and optional modules. In the third year, you select five optional modules from a wide range alongside a dissertation.

### YEAR ONE

**Core or compulsory module(s)**

- Introduction to Biological Anthropology
- Introduction to Material and Visual Culture
- Introductory Social Anthropology
- Methods and Techniques in Biological Anthropology
- Researching the Social World

**Optional modules**

- All first-year modules are compulsory.

### YEAR TWO

**Core or compulsory module(s)**

- Theoretical Perspectives in Social Anthropology and Material Culture
- Being Human

**Optional modules**

- You will select a minimum of 75 and a maximum of 90 credits from Anthropology optional modules which must include choices in biological, social, material culture and medical anthropology.
- Anthropology of the Body
  - Art in the Public Sphere
  - Ethnography of Forest People
  - Linguistic Anthropology
  - Medical Anthropology
  - Palaeoanthropology
  - Primate Behaviour and Ecology
  - The Anthropology of Social Media
- You may take up to a maximum of 15 credits from other undergraduate elective modules outside the department.
FINAL YEAR

Core or compulsory module(s)
- Individual Studies in Anthropology

Optional modules
- You will select a minimum of 60 and a maximum of 75 credits from all final-year Anthropology options. These may include:
  - Anthropology of Capitalism
  - Ethnographic and Documentary Film Making - a practice-based introduction
  - Evolution and Human Behaviour
  - Reproduction, Fertility and Sex
  - Ritual Healing and Therapeutic Emplotment
  - Temporality, Consciousness and Everyday Life
  - The Anthropology of Music and Performance
  - Transforming and Creating Worlds: Anthropological Perspectives on Techniques and Technology
- You may take up to a maximum of 15 credits from other undergraduate elective modules outside the department.

Your learning
Our teaching comprises lectures, tutorials, seminars and laboratory classes. Small-group tutorials, normally meeting weekly, are an important element of many modules. Ongoing feedback is given to help you improve your written work.

Fieldwork
Your first year also includes a three-day field trip, paid for by the department, to discover ethnographic research and participant observation in ritual, landscape, and techniques.

Assessment
Your modules may be assessed by written coursework, by examination or a mixture of both. Examinations are normally unseen and their formats vary according to the module. Some combine short answers with essay questions, others rely solely on longer essay answers.

Your career
The broad range of methodological skills and analytical perspectives offered by the UCL Anthropology programme gives our graduates an unusually wide range of career possibilities, many of them directly related to the discipline’s cross-cultural focus and to our blending of the social and biological sciences.

Former graduates work in diverse fields, such as journalism, film-making, TV, museums, social work, international development, NGOs and the voluntary sector, police, probation, refugee work, wine tasting, market research, advertising, design, PR, marketing, music industry, accountancy, local government, HR, ESL teaching, and as cultural advisors for multinationals.

Your application
Application for admission should be made through UCAS (the Universities and Colleges Admissions Service). Applicants currently at school or college will be provided with advice on the process; however, applicants who have left school or who are based outside the United Kingdom may obtain information directly from UCAS.

Given our broad-based degree candidates whose academic studies have encompassed arts/humanities and science (preferably biology or human biology) will be well equipped to manage all aspects of the degree.
Entry requirements

A LEVELS
Standard Offer: AAB. No specific subjects.

Contextual Offer: BBB. No specific subjects.

GCSE
English Language and Mathematics at grade C or 5, plus Science or Biology at grade B or 6. For UK-based students, a grade C or 5 or equivalent in a foreign language (other than Ancient Greek, Biblical Hebrew or Latin) is required. UCL provides opportunities to meet the foreign language requirement following enrolment, further details at: www.ucl.ac.uk/ug-reqs

IB DIPLOMA
Standard Offer: 36 points. A total of 17 points in three higher level subjects, with no score below 5.

Contextual Offer: 32 points. A total of 15 points in three higher level subjects, with no score below 5.

CONTEXTUAL OFFERS – ACCESS UCL SCHEME
As part of our commitment to increasing participation from underrepresented groups, students may be eligible for a contextual offer as part of the Access UCL scheme. For more information see www.ucl.ac.uk/prospectus

OTHER QUALIFICATIONS
UCL considers a wide range of UK and international qualifications for entry into its undergraduate programmes. Full details are given at: www.ucl.ac.uk/otherquals

UNDERGRADUATE PREPARATORY CERTIFICATES
(Undergraduate Preparatory Certificates) (International foundation courses)
UCL Undergraduate Preparatory Certificates (UPCs) are intensive one-year foundation courses for international students of high academic potential who are aiming to gain access to undergraduate degree programmes at UCL and other top UK universities.

Typical UPC students will be high achievers in a 12-year school system which does not meet the standard required for direct entry to UCL.

For more information see: www.ucl.ac.uk/upc.

TUITION FEES
The fees indicated are for undergraduate entry in the 2020/21 academic year. The UK/EU fees shown are for the first year of the programme at UCL only. Fees for future years may be subject to an inflationary increase. The Overseas fees shown are the fees that will be charged to 2020/21 entrants for each year of study on the programme, unless otherwise indicated below.

// UK & EU: £9,250 (2020/21)
// Overseas: £28,610 (2020/21)

Full details of UCL’s tuition fees, tuition fee policy and potential increases to fees can be found on the UCL Students website.

FUNDING
Various funding options are available, including student loans, scholarships and bursaries. UK students whose household income falls below a certain level may also be eligible for a non-repayable bursary or for certain scholarships. Please see the Fees and funding pages for more details.
