Your learning

You will be taught using a mixture of lectures, seminars and practical sessions, either field or laboratory-based. Full use is made of our extensive teaching and reference collections and close connections to the national museums and collections of London.

Assessment

Coursework, typically 1,500-2,500 word essays, is used to assess most modules. Most compulsory modules and some optional modules involve an examination element too. The completion of 70 days' fieldwork is a requirement for all archaeology students.

Accessibility

Details of the accessibility of UCL buildings can be obtained from AccessAble. Further information can also be obtained from the UCL Student Support & Wellbeing team.

Your career

Throughout the degree, which includes 70 days of fieldwork, students develop the ability to work collaboratively and effectively within teams as well as working independently in order to execute research. Students develop strong research and analytical skills and an appreciation of the importance of recovering primary data through practical experience.

Students learn to communicate effectively verbally, visually and in writing to diverse audiences and develop a sensitivity to different cultures.

Your application

Application for admission should be made through UCAS (the Universities and Colleges Admissions Service). Applicants currently at school or college will be provided with advice on the process; however, applicants who have left school or who are based outside the United Kingdom may obtain information directly from UCAS.

We use predicted grades, references, previous academic records and the personal statement on your application to assess your suitability for the programme. You should demonstrate your interest in studying archaeology and anthropology and explain the measures you have taken to sustain your interest in the past. Evidence of interests and activities beyond the school curriculum will also be of benefit.

The UCAS application forms are assessed by a central UCL team and the Institute of Archaeology. The personal statement and predicted grades are used for assessment and sometimes extra information is requested.
