**Key information**

**Programme starts**
September 2020

**Location**
London, Bloomsbury

**Degree benefits**

- UCL is ranked the second best place to study archaeology in the UK by the Guardian University Guide 2018.
- The Institute of Archaeology’s degree programmes offer a huge variety of optional modules, covering a diverse range of archaeological topics in both a theoretical and a practical manner.
- Optional modules (which may not run every year) include Greek Art & Architecture, Zooarchaeology, Archaeological Photography, Indigenous Archaeology, Archaeology of Human Evolution (to name but a few!)
- The degree includes 70 days of partially funded fieldwork: destinations have included Belize, Spain, USA, Romania, Portugal, Georgia, Kazakhstan, Wales, Scotland, Uganda & Greece (to name but a few).

**Degree structure**

In each year of your degree you will take a number of individual modules, normally valued at 15 or 30 credits, adding up to a total of 120 credits for the year. Modules are assessed in the academic year in which they are taken. The balance of compulsory and optional modules varies from programme to programme and year to year. A 30-credit module is considered equivalent to 15 credits in the European Credit Transfer System (ECTS).

Core modules in the first year provide a solid grounding in the practical and theoretical methods in archaeology and an introduction to major issues in world prehistory.

The second and fourth years provide a more advanced understanding of archaeology and allow you to develop your own specialised interests by choosing optional modules in particular subject areas.

Your third year is spent entirely abroad at one of our partner institutions, where you will take modules and fulfill all academic responsibilities relevant to that institution. You will need to be in good academic standing and linguistically competent for your exchange destination.

Your learning
You will be taught using a mixture of lectures, seminars and practical sessions, either field or laboratory-based. Full use is made of our extensive teaching and reference collections and close connections to the national museums and collections of London.

Fieldwork
Fieldwork is a major component of the degree with 70 days of partially funded fieldwork being a compulsory element (fieldwork includes excavation / museum work / research and can take you all over the globe; other recent projects have included Montenegro, Peru, Wales, Spain, Romania and China, to name a few).

Assessment
Coursework, typically 1,500-2,500 word essays, is used to assess most modules. Most compulsory modules and some optional modules involve an examination element too. The completion of 70 days' fieldwork is a requirement for all archaeology students.

Your career
Throughout the degree, which includes 70 days of fieldwork, students develop the ability to work collaboratively and effectively within teams as well as working independently in order to execute research. Students develop strong research and analytical skills and an appreciation of the importance of recovering primary data through practical experience.

Students learn to communicate effectively verbally, visually and in writing to diverse audiences and develop a sensitivity to different cultures.

Your application
Application for admission should be made through UCAS (the Universities and Colleges Admissions Service). Applicants currently at school or college will be provided with advice on the process; however, applicants who have left school or who are based outside the United Kingdom may obtain information directly from UCAS.

We use predicted grades, references, previous academic records and the personal statement on your application to assess your suitability for the programme. You should demonstrate your interest in studying archaeology and explain the measures you have taken to sustain your interest in the past. Evidence of interests and activities beyond the school curriculum will also be of benefit.

The UCAS application forms are assessed by a central UCL team and the Institute of Archaeology. The personal statement and predicted grades are used for assessment and sometimes extra information is requested.
**Entry requirements**

**A LEVELS**

*Standard Offer:* ABB. No specific subjects.

*Contextual Offer:* BBB. No specific subjects.

**GCSE**

English Language and Mathematics at grade C or 5. For UK-based students, a grade C or 5 or equivalent in a foreign language (other than Ancient Greek, Biblical Hebrew or Latin) is required. UCL provides opportunities to meet the foreign language requirement following enrolment, further details at: [www.ucl.ac.uk/ug-reqs](http://www.ucl.ac.uk/ug-reqs)

*Contextual Offer:* 32 points. A total of 15 points in three higher level subjects, with no score below 5.

**CONTEXTUAL OFFERS – ACCESS UCL SCHEME**

As part of our commitment to increasing participation from underrepresented groups, students may be eligible for a contextual offer as part of the Access UCL scheme. For more information see [www.ucl.ac.uk/prospectus](http://www.ucl.ac.uk/prospectus)

**OTHER QUALIFICATIONS**

UCL considers a wide range of UK and international qualifications for entry into its undergraduate programmes. Full details are given at: [www.ucl.ac.uk/otherquals](http://www.ucl.ac.uk/otherquals)

**UNDERGRADUATE PREPARATORY CERTIFICATES (International foundation courses)**

UCL Undergraduate Preparatory Certificates (UPCs) are intensive one-year foundation courses for international students of high academic potential who are aiming to gain access to undergraduate degree programmes at UCL and other top UK universities.

Typical UPC students will be high achievers in a 12-year school system which does not meet the standard required for direct entry to UCL.

For more information see: [www.ucl.ac.uk/upc](http://www.ucl.ac.uk/upc).
