ARTS AND SCIENCES WITH STUDY ABROAD BASc / UCAS CODE: Y001 2021 ENTRY

www.ucl.ac.uk/prospectus
Arts and Sciences with Study Abroad BASc /

This exciting four-year programme provides great flexibility and choice, offering an interdisciplinary approach incorporating both arts and sciences specialisms with the opportunity to learn a foreign language and spend a year at a university abroad. Students create a bespoke programme and study innovative modules to enhance the link between disciplines.

**Key information**

**Programme starts**
September 2021

**Location**
London, Bloomsbury

**Degree benefits**

// UCL’s Arts and Sciences programmes allow you to create a bespoke programme, incorporating both arts and science specialisms.

// Responding to increased demand from employers for outstanding graduates with cross-disciplinary experience, these degrees will equip you with knowledge, skills and insight across arts and sciences subjects.

// You will spend your third year of study abroad at an approved university—either in an English-speaking country or in a country where your chosen foreign language is spoken.

// Core modules will enhance your understanding of how different branches of knowledge interrelate. You will also develop your language skills and undertake an internship, giving you the chance to explore future employment options.

**Degree structure**

In each year of your degree you will take a number of individual modules, normally valued at 15 or 30 credits, adding up to a total of 120 credits for the year. Modules are assessed in the academic year in which they are taken. The balance of compulsory and optional modules varies from programme to programme and year to year. A 30-credit module is considered equivalent to 15 credits in the European Credit Transfer System (ECTS).

The programme offers a wide combination of specialist modules and an interdisciplinary Core. The Core modules enable you to acquire the skills and concepts you will need to work effectively across multiple disciplines. They link traditional UCL subjects in new ways and explore the conceptual and methodological differences between arts and science subjects.

You will study a modern foreign language throughout your degree and may gain work experience through an internship chosen to integrate your studies with your future employment aspirations.

Possible internships include businesses, non-governmental organisations and charities. Our students have had internships with a wide range of employers including: Accenture, Goldman Sachs, Norton Rose Fulbright, the UN, the Civil Service, Reuters, the Wellcome Trust, Horniman Museum and Gardens, the Zoological Society of London and many more.

You will choose a major and a minor pathway on application. Your pathways determine the subjects in which you will specialise. We offer two arts pathways and two sciences pathways.

- **Cultures (Humanities and Arts)**: Anthropology, Creative Writing, Cultural Studies, Design and Visualisation, Drawing Methodology, Film and Documentary Film-Making, History, History of Art, Languages, Literature, Philosophy
- **Societies (Social Sciences)**: Archaeology, Economics, Geography, History, International Relations, Law, Management, Philosophy, Political Economy, Politics, Sociology
- **Health and Environment (Sciences)**: Anthropology, Biochemistry, Biological Sciences, Biomedicine, Environmental Sciences, Geography, Geology, Neuroscience, Pharmacology, Psychology
- **Sciences and Engineering (Sciences)**: Chemistry, Computer Science, Earth Sciences, Economics, Engineering, Mathematics, Physics, Statistics

Upon successful completion of 360 credits, you will be awarded a BASc (Hons) in your chosen Arts and Sciences pathway.

Please note that the list of modules given here is indicative. This information is published a long time in advance of enrolment and module content and availability is subject to change.
Your career

On graduation, you will have at least two academic specialisms, strong leadership and communication skills and the ability to work flexibly and creatively in a range of fields.

The Arts and Sciences programmes are designed to prepare students for a wide variety of contemporary careers and research.

Your application

Application for admission should be made through UCAS (the Universities and Colleges Admissions Service). Applicants currently at school or college will be provided with advice on the process; however, applicants who have left school or who are based outside the United Kingdom may obtain information directly from UCAS.

Your application should provide evidence that you are: prepared for critical enquiry and in-depth academic work across a broad intellectual spectrum; interested in engaging in wider societal, cultural and global issues; interested in careers involving leadership, social entrepreneurship and intercultural exchange; prepared to think critically and creatively to seek new connections between types of knowledge; and interested in combining non-standard areas of study in your degree.

We recognise you may not be able to write a personal statement which reflects your interest in this programme and your other UCAS choices. This will not adversely affect your application. If your application demonstrates your eligibility, we will email you and ask you to complete a questionnaire.

Your learning

You will be exposed to a wide range of learning opportunities, including lectures, seminars, tutorials, interactive groups and multimedia projects. Core modules will be taken alongside your fellow BASc students. Modules relating to your pathway subjects will be taught by specialist staff from across UCL and will provide you with an opportunity to learn alongside students on other programmes.

Assessment

Both your pathway subjects and the language component will be assessed by written examinations and essays. Project work and a dissertation will contribute to your overall assessment. You will be required to give presentations, work on group projects and multimedia projects and participate in assessed debates.

Accessibility

Details of the accessibility of UCL buildings can be obtained from AccessAble. Further information can also be obtained from the UCL Student Support & Wellbeing team.
Entry requirements

A LEVELS

Standard Offer: A’AA. Major pathway requirements: Cultures: at least one essay-based arts/humanities subject Societies: at least one social sciences or essay-based arts/humanities subject; Sciences and Engineering: Mathematics and one other science; Health and Environment: Chemistry or Biology, and one other science or social science. For more information about A level subject classification, see the BASc website at: www.ucl.ac.uk/basc/prospective/application/alevels

GCSE: English Language and Mathematics at grade B or 6. For UK-based students, a grade C or 5 or equivalent in a foreign language (other than Ancient Greek, Biblical Hebrew or Latin) is required. UCL provides opportunities to meet the foreign language requirement following enrolment, further details at: www.ucl.ac.uk/ug-reqs.

Contextual Offer: AAB. Major pathway requirements: Cultures: at least one essay-based arts/humanities subject Societies: at least one social sciences or essay-based arts/humanities subject; Sciences and Engineering: Mathematics and one other science; Health and Environment: Chemistry or Biology, and one other science or social science.

GCSE: English Language and Mathematics at grade B or 6. For UK-based students, a grade C or 5 or equivalent in a foreign language (other than Ancient Greek, Biblical Hebrew or Latin) is required. UCL provides opportunities to meet the foreign language requirement following enrolment, further details at: www.ucl.ac.uk/ug-reqs.

IB DIPLOMA

Standard Offer: 39 points. A score of 19 points in three higher level subjects. Major pathway requirements: Cultures at least one HL from Groups 1, 2 or 6; Societies: at least one HL from Group 1, 2, 3 or 6; Sciences and Engineering: to include higher level Mathematics at grade 6 and a further higher level subject from groups 4 or 5; Health and Environment: to include higher level Chemistry or Biology at grade 6 and a further higher level subject from groups 3, 4 or 5.

Contextual Offer: 36 points. A score of 17 points in three higher level subjects. Major pathway requirements: Cultures at least one HL from Groups 1, 2 or 6; Societies: at least one HL from Group 1, 2, 3 or 6; Sciences and Engineering: to include higher level Mathematics at grade 6 and a further higher level subject from groups 4 or 5; Health and Environment: to include higher level Chemistry or Biology at grade 6 and a further higher level subject from groups 3, 4 or 5.

CONTEXTUAL OFFERS – ACCESS UCL SCHEME

As part of our commitment to increasing participation from underrepresented groups, students may be eligible for a contextual offer as part of the Access UCL scheme. For more information see www.ucl.ac.uk/access.

OTHER QUALIFICATIONS

UCL considers a wide range of UK and international qualifications for entry into its undergraduate programmes. Full details are given at: www.ucl.ac.uk/otherquals.

UNDERGRADUATE PREPARATORY CERTIFICATES (International foundation courses)

UCL Undergraduate Preparatory Certificates (UPCs) are intensive one-year foundation courses for international students of high academic potential who are aiming to gain access to undergraduate degree programmes at UCL and other top UK universities.

Typical UPC students will be high achievers in a 12-year school system which does not meet the standard required for direct entry to UCL.

For more information see: www.ucl.ac.uk/upc.

TUITION FEES

The fees indicated are for undergraduate entry in the 2021/22 academic year. The UK fees shown are for the first year of the programme at UCL only. Fees for future years may be subject to an inflationary increase. The Overseas fees shown are the fees that will be charged to 2021/22 entrants for each year of study on the programme, unless otherwise indicated below.

// UK: £9,250 (2021/22)
// Overseas: £25,800 (2021/22)

Full details of UCL’s tuition fees, tuition fee policy and potential increases to fees can be found on the UCL Students website.

ADDITIONAL COSTS

You may incur additional costs for materials for modules taken within the Bartlett School of Architecture and the Slade School of Fine Art. It is estimated this would be up to £50 per module taken in either of those departments.

A guide including rough estimates for those and other living expenses is included on the UCL Fees and funding pages. If you are concerned by potential additional costs for books, equipment, etc., please get in touch with the relevant departmental contact (details given on this page).

In addition, please note that if you wish to study abroad during your programme at UCL, this is likely to incur additional costs. Studying abroad may cost between £200–£1000 per month depending on where you choose to study. The cost of studying abroad can be difficult to predict as it will depend on your priorities and choices.

There is more information available on the UCL Study Abroad website.

FUNDING

Various funding options are available, including student loans, scholarships and bursaries. UK students whose household income falls below a certain level may also be eligible for a non-repayable bursary or for certain scholarships. Please see the Fees and funding pages for more details.
