LINGUISTICS BA /
UCAS CODE: Q100
2021 ENTRY

www.ucl.ac.uk/prospectus
Linguistics BA /

Linguistics is the study of the capacity to use language. At UCL students investigate the sound patterns (Phonetics and Phonology) and grammatical structures (Syntax) of the world’s languages, and how meanings are expressed through language use (Semantics and Pragmatics). They can also explore a broad range of questions including language acquisition and processing, multilingualism, sociolinguistics, language evolution, and animal communication.

Key information

Programme starts
September 2021

Location
London, Bloomsbury

Degree benefits

You will develop a broad foundation in linguistic analysis and theory, while being able to pursue chosen areas in greater depth, and also to study language and linguistics in a broader context.

You will develop a wide range of transferable skills: a broad understanding of language and languages; data collection and analysis; hypothesis testing; critical reading and argumentation. Through optional modules, students may gain experience with experimental design and statistical analysis.

Our focus on small-group teaching helps develop a friendly and supportive atmosphere. LingSoc, the linguistics student society, runs a mentoring scheme whereby second-year or final-year students support new students.

UCL Linguistics is known worldwide for its teaching and research excellence and the work of our staff appears in internationally acclaimed journals and books. You will also have access to extensive computer facilities and to a specialised on-site library in addition to UCL’s main library.

Degree structure

In each year of your degree you will take a number of individual modules, normally valued at 15 or 30 credits and adding up to 120 credits per year in the European Credit Transfer System (ECTS). Modules are assessed in the academic year in which they are taken. The balance of compulsory and optional modules varies from programme to programme and year to year.

In the first year your modules are all compulsory, providing a broad foundation in linguistics and helping you assess where your own interests and strengths lie. In addition to compulsory modules in core areas of semantics and pragmatics, phonetics or phonology, and syntax, students on the BA Linguistics pathway will take a module in language acquisition while students on the BSc Experimental Linguistics pathway will take a module in research methods.

In year two, students on the BA Linguistics pathway take at least four intermediate modules covering the core areas of linguistics. They will also take two 15-credit elective modules in Linguistics, and two 15-credit UCL-wide elective modules.

On the BSc Experimental Linguistics pathway, students take at least three intermediate modules from the core areas of linguistics. They will also take modules on research methods, language acquisition, psycholinguistics, and neurolinguistics, as well as one 15-credit UCL-wide elective module.

In their final year, students on both pathways undertake a 30-credit research project, involving a deep and sustained study of a subject in which they are especially interested.

Students in the BA Linguistics take three advanced modules from the core areas of linguistics, one intermediate or advanced module offered in any area of linguistics, and two further Linguistics or UCL-wide elective modules. Students in the BSc Experimental Linguistics take one laboratory-based module, two optional modules in Linguistics and three further UCL-wide elective modules.

The elective modules you take in years two and three may include modules offered outside Linguistics, for example, many students choose to take language courses taught by the UCL Centre for Languages & International Education.

Upon successful completion of 360 credits, you will be awarded a BA (Hons) in Linguistics.

Please note that the list of modules given here is indicative. This information is published a long time in advance of enrolment and module content and availability is subject to change.
YEAR ONE

**Compulsory module(s)**

- All students entering the programme will study:
  - Core Issues in Linguistics
  - Introduction To Generative Grammar
  - Introduction To Phonetics And Phonology A
  - Introduction to Semantics and Pragmatics A
  - Introduction to Semantics and Pragmatics B

BA Linguistics students will additionally study:

- Introduction to Children's Language Development

BSc Experimental Linguistics students will additionally study:

- Introduction to Research Methods

**Optional modules**

- All first-year modules are compulsory.

YEAR TWO

**Compulsory module(s)**

- BA Linguistics students will study Semantics, Pragmatics, Syntax, and either Phonetics or Phonology at intermediate level amounting to 60 credits.
- BSc Experimental Linguistics students will study 60 credits of modules in Research Design, Child Language Development, Psycholinguistics, and Neurolinguistics.

**Optional modules**

- BA Linguistics students select 30 credits of further linguistics modules, and 30 credits of elective modules from across UCL.
- BSc Experimental Linguistics students select 45 credits of intermediate modules across the areas of syntax, semantics, pragmatics, phonetics, and phonology, as well as 15 credits of elective modules from across UCL.

FINAL YEAR

**Compulsory module(s)**

- Students on both BA Linguistics and BSc Experimental Linguistics complete the Long Essay, worth 30 credits.
- In addition, BA Linguistics students select 45 credits from the core areas of their choice, and 15 credits of advanced or intermediate modules in linguistics not already taken.
- BSc Experimental Linguistics students take one practical laboratory-based module, and one experimental module totalling 30 credits. In addition, they select 15 credits of advanced modules from the core area of their choice, and 15 credits of advanced or intermediate modules in linguistics not already taken.

**Optional modules**

- All students select 30 credits of further intermediate or advanced modules in linguistics, or any intermediate or advanced modules available at UCL.

Your career

In addition to subject-specific skills, you will also acquire the analytical, investigative and study skills essential for most graduate careers, which could include law, computing, commerce and industry. Recent national surveys show that Linguistics graduates have above average employment rates and starting salaries after graduation.

Many Linguistics graduates from UCL carry on with the subject at graduate level often with a view to pursuing an academic career. Linguistics connects with many other disciplines and a number of graduates go on to work in these areas, e.g. teaching languages, especially English as a first or foreign language, speech therapy, advertising or the media.

Your application

Application for admission should be made through UCAS (the Universities and Colleges Admissions Service). Applicants currently at school or college will be provided with advice on the process; however, applicants who have left school or who are based outside the United Kingdom may obtain information directly from UCAS.

We are looking for students with strong analytical skills who are fascinated by languages and intrigued by how the human mind works. We place particular emphasis on your personal statement and will be looking for clarity of expression and evidence that you have considered the subject in detail.

UK residents may then be invited to an applicant open day where you will find out about the department and programme, attend a taster lecture and join a tour of UCL. We value the experience that candidates who do not have standard qualifications may bring, and encourage you to contact us if you are interested in the programme.

Your learning

Teaching is mainly delivered through lectures, workshops and small-group teaching (tutorials in which you meet with a group of between five and 12 students and a staff member to discuss topics covered in the lecture) as well as a virtual learning environment. Some modules also involve workshops.

Assessment

Each module is assessed and examined separately, often by a combination of essays, exercises and examinations. Your performance in a module is always assessed in the same academic year in which you take it.

Accessibility

Details of the accessibility of UCL buildings can be obtained from AccessAble. Further information can also be obtained from the UCL Student Support & Wellbeing team.
Entry requirements

**A LEVELS**

**Standard Offer:** AAB. Experimental Linguistics BSc pathway: AAB. One or more subjects from English Language, Mathematics or science preferred. Experimental Linguistics pathway: at least one subject from Biology, Chemistry, Mathematics, Physics and Psychology.

**GCSE:** English Language and Mathematics at grade C or 5. For UK-based students, a grade C or 5 or equivalent in a foreign language (other than Ancient Greek, Biblical Hebrew or Latin) is required. UCL provides opportunities to meet the foreign language requirement following enrolment, further details at: [www.ucl.ac.uk/ug-reqs](http://www.ucl.ac.uk/ug-reqs).

**Contextual Offer:** BBB Experimental Linguistics BSc pathway: BBB. One or more subjects from English Language, Mathematics or science preferred. Experimental Linguistics pathway: at least one subject from Biology, Chemistry, Mathematics, Physics and Psychology.

**GCSE:** English Language and Mathematics at grade C or 5. For UK-based students, a grade C or 5 or equivalent in a foreign language (other than Ancient Greek, Biblical Hebrew or Latin) is required. UCL provides opportunities to meet the foreign language requirement following enrolment, further details at: [www.ucl.ac.uk/ug-reqs](http://www.ucl.ac.uk/ug-reqs).

**IB DIPLOMA**

**Standard Offer:** 36 points. A score of 17 points in three higher level subjects preferably to include English Language, Mathematics or a science subject, with no score lower than 5. Experimental Linguistics pathway: A score of 17 points in three higher level subjects including one from Biology, Chemistry, Physics, Mathematics or Psychology with no score below 5.

**Contextual Offer:** 32. Experimental Linguistics BSc pathway: 32. points. A score of 15 points in three higher level subjects preferably to include English Language, Mathematics or a science subject, with no score lower than 5. Experimental Linguistics pathway: A score of 15 points in three higher level subjects including one from Biology, Chemistry, Physics, Mathematics or Psychology with no score below 5.

**CONTEXTUAL OFFERS – ACCESS UCL SCHEME**

As part of our commitment to increasing participation from underrepresented groups, students may be eligible for a contextual offer as part of the Access UCL scheme. For more information see [www.ucl.ac.uk/prospectus](http://www.ucl.ac.uk/prospectus).

**OTHER QUALIFICATIONS**

UCL considers a wide range of UK and international qualifications for entry into its undergraduate programmes. Full details are given at: [www.ucl.ac.uk/otherquals](http://www.ucl.ac.uk/otherquals).

**UNDERGRADUATE PREPARATORY CERTIFICATES (International foundation courses)**

UCL Undergraduate Preparatory Certificates (UPCs) are intensive one-year foundation courses for international students of high academic potential who are aiming to gain access to undergraduate degree programmes at UCL and other top UK universities.

Typical UPC students will be high achievers in a 12-year school system which does not meet the standard required for direct entry to UCL.

For more information see: [www.ucl.ac.uk/upc](http://www.ucl.ac.uk/upc).

---

**TUITION FEES**

The fees indicated are for undergraduate entry in the 2021/22 academic year. The UK fees shown are for the first year of the programme at UCL only. Fees for future years may be subject to an inflationary increase. The Overseas fees shown are the fees that will be charged to 2021/22 entrants for each year of study on the programme, unless otherwise indicated below.

- **UK:** £9,250 (2021/22)
- **Overseas:** £23,300 (2021/22)

Full details of UCL’s tuition fees, tuition fee policy and potential increases to fees can be found on the [UCL Students website](http://www.ucl.ac.uk).

**ADDITIONAL COSTS**

A guide including rough estimates for these and other living expenses is included on the [UCL Fees and funding pages](http://www.ucl.ac.uk/). If you are concerned by potential additional costs for books, equipment, etc., please get in touch with the relevant departmental contact (details given on this page).

**FUNDING**

Various funding options are available, including student loans, scholarships and bursaries. UK students whose household income falls below a certain level may also be eligible for a non-repayable bursary or for certain scholarships. Please see the [Fees and funding pages](http://www.ucl.ac.uk/fees/) for more details.
